

Oregon, and Washington. We have also adjusted the number of record keepers of fungicide applications to more accurately reflect the number of nurseries. In addition, we have reduced the number of record keepers for incoming and outgoing shipments of plants to reflect the number of host nurseries and farms that record shipments. All of these changes have led to changes in our burden estimates. For instance, we have increased the estimate of burden from 0.31 to 1.097 hours per response and increased the estimated total annual burden on respondents from 2,263 to 4,076 hours. We have also decreased the estimated annual number of responses and the estimated annual number of responses per respondent from 7,227 to 3,717 and 5.06 to 2.26, respectively. Lastly, we have increased the estimated annual number of respondents from 1,427 to 1,644.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 1.097 hours per response.

Respondents: Nurseries in California, Oregon, and Washington.

Estimated annual number of respondents: 1,644.

Estimated annual number of responses per respondent: 2.26.

Estimated annual number of responses: 3,717.

Estimated total annual burden on respondents: 4,076 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual

number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 19th day of September 2013.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.
