

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Agency for Healthcare Research and Quality****Special Emphasis Panel; Meeting**

AGENCY: Agency for Healthcare Research and Quality, HHS.

ACTION: Notice.

SUMMARY: In accordance with section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. App. 2), announcement is made of an Agency for Healthcare Research and Quality (AHRQ) Special Emphasis Panel (SEP) meeting on “*AHRQ RFA-HS-13-010, Closing the Gap in Healthcare Disparities through Dissemination and Implementation of Patient Centered Outcomes Research (U18)*”. Each SEP meeting will commence in open session before closing to the public for the duration of the meeting.

DATES: November 6, 2013 (*Open on November 6 from 8:00 a.m. to 8:30 a.m. and closed for the remainder of the meeting*).

ADDRESSES: Hyatt Regency Hotel Bethesda, One Metro Center, Bethesda, MD 20814.

FOR FURTHER INFORMATION CONTACT: Anyone wishing to obtain a roster of members, agenda or minutes of the non-confidential portions of this meeting should contact: Mrs. Bonnie Campbell, Committee Management Officer, Office of Extramural Research, Education and Priority Populations, AHRQ, 540 Gaither Road, Room 2038, Rockville, Maryland 20850, Telephone: (301) 427-1554.

Agenda items for this meeting are subject to change as priorities dictate.

SUPPLEMENTARY INFORMATION: A Special Emphasis Panel is a group of experts in fields related to health care research who are invited by the Agency for Healthcare Research and Quality (AHRQ), and agree to be available, to conduct on an as needed basis, scientific reviews of applications for AHRQ support. Individual members of the Panel do not attend regularly-scheduled meetings and do not serve for fixed terms or a long period of time. Rather, they are asked to participate in particular review meetings which require their type of expertise.

Each SEP meeting will commence in open session before closing to the public for the duration of the meeting. The SEP meeting referenced above will be closed to the public in accordance with the provisions set forth in 5 U.S.C. App. 2, section 10(d), 5 U.S.C. 552b(c)(4), and 5

U.S.C. 552b(c)(6). The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Dated: September 25, 2013.

Richard Kronick,

Director.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-7570 or send comments to LeRoy Richardson, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an email to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

Application of a Web-based Health Survey Tool in Schools—New—National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The mission of the National Institute for Occupational Safety and Health (NIOSH) is to promote safety and health at work for all people through research and prevention. The Occupational Safety and Health Act, Public Law 91-596 (section 20[a] [1]), authorizes NIOSH to conduct research to advance the health and safety of workers. NIOSH is proposing to conduct a health questionnaire of employees in 50 elementary schools in a large school district in the Northeastern United States.

According to the 2012 Bureau of Labor Statistics survey, the educational services sector employs approximately 12.9 million workers, with 8.4 million working in elementary and secondary schools. A 2010 analysis of data on U.S. working adults indicated that the educational services sector had one of the highest prevalence's of current asthma at 13.1%.

In 1995, the Government Accounting Office reported that about 33% of schools in the U.S. needed extensive repair or replacement of one or more buildings, which includes problems related to dampness and mold. A better understanding of school building conditions related to dampness and mold, as well as associated health effects, is essential for the prevention of work-related illness in school staff.

NIOSH requests OMB approval to administer an internet-based questionnaire to collect health information on staff from 50 schools within this school district. The survey will be conducted concurrently with a field-based environmental survey using a dampness and mold assessment tool, which was developed by NIOSH to collect information on dampness and mold in buildings. NIOSH will collaborate with the school district and local teachers union to recruit a broad range of school staff as participants, including teachers, administrative staff, facilities and maintenance staff, nurses and counselors, and kitchen staff for this study. Results will be used to determine possible relationships between health outcomes and environmental conditions, specifically conditions related to dampness and mold. Results will also help to validate the dampness and mold assessment tool.

Overall results will benefit many stakeholders, including school-affiliated and general administrative personnel, facilities and maintenance representatives, building owners, and safety and health professionals charged with the prevention, identification, and

remediation of environmental issues when occupant health concerns are raised.
 NIOSH anticipates that the internet-based questionnaire will begin in the

spring of 2014. All participants will be asked to complete the same questionnaire, which will take approximately 20 minutes to complete.

The total estimated burden for this one-time collection of data is 1,567 hours. There are no costs to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

| Type of respondents | Form name | Number of respondents | Number of responses per respondent | Avg. burden per response (in hrs.) | Total burden (in hrs.) |
|-----------------------------------|----------------------------------------|-----------------------|------------------------------------|------------------------------------|------------------------|
| Elementary School Employees | Elementary School Staff Questionnaire. | 4,700 | 1 | 20/60 | 1,567 |
| Total | | | | | 1,567 |

Centers for Disease Control and Prevention

UPDATE—Meeting of the Community Preventive Services Task Force (Task Force)

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).
ACTION: Update to notice of meeting.

SUMMARY: The Centers for Disease Control and Prevention (CDC) announces an update to the meeting of the Community Preventive Services Task Force (Task Force). The in-person Task Force meeting is being replaced by an abbreviated conference call as a result of the lapse in the FY 2014 appropriation, which limited CDC's ability to complete the necessary scientific and logistical support for the meeting. The Task Force is an independent, nonfederal, and uncompensated panel. Its members represent a broad range of research, practice, and policy expertise in prevention, wellness, health promotion, and public health, and are appointed by the CDC Director. The Task Force was convened in 1996 by the Department of Health and Human Services (HHS) to identify community preventive programs, services, and policies that increase healthy longevity, save lives and dollars and improve Americans' quality of life. CDC is mandated to provide ongoing administrative, research, and technical support for the

operations of the Task Force. During its meetings, the Task Force considers the findings of systematic reviews on existing research, and issues recommendations. These recommendations provide evidence-based options from which decision makers in communities, companies, health departments, health plans and healthcare systems, non-governmental organizations, and at all levels of government can choose what best meets the needs, preferences, available resources, and constraints of their constituents. The Task Force's recommendations, along with the systematic reviews of the scientific evidence on which they are based, are compiled in the *Guide to Community Preventive Services (Community Guide)*.

DATES: The meeting will be held by conference call on Wednesday, October 23, 2013, from 12 p.m. to 5:30 p.m. EDT.

Meeting Accessibility: This meeting is open to the public. If you RSVPed to the original notice by the requested date, October 9, 2013, additional information will be provided on how to access the meeting.

FOR FURTHER INFORMATION CONTACT: Andrea Baeder, The Community Guide Branch; Division of Epidemiology, Analysis, and Library Services; Center for Surveillance, Epidemiology and Laboratory Services; Office of Public Health Scientific Services, Centers for Disease Control and Prevention, 1600 Clifton Road, MS-E-69, Atlanta, GA 30333, phone: (404) 498-6876, email: CPSTF@cdc.gov.

SUPPLEMENTARY INFORMATION:
Purpose: The purpose of the meeting is for the Task Force to consider the findings of systematic reviews and issue findings and recommendations to help inform decision making about policy, practice, and research in a wide range of U.S. settings.

Matters to be discussed: motor vehicle-related injury prevention and health equity.

Dated: October 18, 2013.
Tanja Popovic,
 Deputy Associate Director for Science,
 Centers for Disease Control and Prevention.

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, HHS.
ACTION: Notice.

SUMMARY: The Centers for Medicare & Medicaid Services (CMS) is announcing an opportunity for the public to comment on CMS' intention to collect information from the public. Under the Paperwork Reduction Act of 1995 (the PRA), federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information (including each proposed extension or reinstatement of an existing collection of information) and to allow 60 days for public comment on the proposed action. Interested persons are invited to send comments regarding our burden estimates or any other aspect of this collection of information, including any of the following subjects: the necessity and utility of the proposed information collection for the proper performance of the agency's functions; the accuracy of the estimated burden; ways to enhance the quality, utility, and clarity of the information to be collected; and the use of automated collection techniques or other forms of
