

available until the fourth quarter of 2014 under EIA's proposed schedule. Therefore, the EIA data will not be available to the Commission in time to report 2013 findings in calendar year 2014.

Because these alternatives will not provide data or will not provide data in a timely manner for the 2014 report, the Commission proposes to conduct a survey (attached in the docket) with a response deadline of May 1, 2014. This survey has been designed to be consistent with the NERC's data collection such that, in future years, the Commission may be able to use the NERC data when it becomes available, phase-out the FERC demand response survey and still comply with EPA Act 2005 Section 1252(e)(3).

FERC staff has designed a survey that will impose minimal burden on respondents by providing respondents with an easy-to-complete, fillable form

that will include such user friendly features as pre-populated fields and drop-down menus, make use of the data that is becoming available from reliable sources, and provide it with the information necessary to draft and file the report that is required by Congress. The survey can be electronically filed. A paper version of the survey will be available for those who are unable to file electronically.

Access to the Proposed Materials: The survey form, instructions, and glossary are attached to this docket, but they are not being published in the **Federal Register**.⁴ Interested parties can see the materials electronically as part of this notice in FERC's eLibrary (<http://www.ferc.gov/docs-filing/elibrary.asp>) by searching Docket No. IC13-22-000.

Interested parties may also request paper or electronic copies of any of the materials by contacting FERC's Public Reference Room by email at

public.referenceroom@ferc.gov or by telephone at (202) 502-8371

Type of Respondents: The Commission is proposing to collect the demand response and advanced metering information via a voluntary survey from the nation's entities that serve wholesale and retail customers. The information will be used to draft and file the report that is required by Congress. Industry cooperation is important for us to obtain as accurate and up-to-date information as possible to respond to Congress, as well as to provide information to states and other market participants. We, therefore, strongly encourage all potential survey respondents to complete the survey.

*Estimate of Annual Burden:*⁵ The Commission estimates the total Public Reporting Burden for this information collection as:

FERC-733—DEMAND RESPONSE/TIME-BASED RATE PROGRAMS AND ADVANCED METERING

	Number of respondents	Number of responses per respondent	Total number of responses	Average burden hours per response	Estimated total burden ⁶
	(A)	(B)	(A)×(B)=(C)	(D)	(C)×(D)
Entities that serve wholesale and retail customers	3,400	1	3,400	3.5	11,900

The total estimated cost burden to respondents for the 2014 survey is \$669,613 (11,900 hours/year × \$56.27/hour⁷ = \$669,613. The estimated cost per respondent for the survey is \$196.95 (3.5 hours/survey × \$56.27/hour = \$196.95.

Comments: Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

⁴ The attached form is for illustrative purposes only and does not include all the interactive features of the actual form.

⁵ The Commission defines burden as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the
