SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1142.

Title: Electronic Tariff filing System (ETFS), WC Docket No. 10-141.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 1,500 respondents; 1,500 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: On occasion and annual reporting requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151, 152, 154(i), 201-205, and 226(h)(1)(A) of the Communications Act of 1934, as amended.

Total Annual Burden: 1,500 hours.

Total Annual Cost: \$1,267,500.

Privacy Impact Assessment: N/A.

Nature and Extent of Confidentiality:

The Commission does not anticipate providing confidentiality of the information submitted by local exchange carriers. Particularly, the tariffs and related documents sent to the Commission will be made public through ETFS. If the respondents submit information they believe to be confidential, they may request confidential treatment of such information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this expiring information collection to the Office of Management and Budget (OMB) for approval of an extension request (no change in the reporting requirements). There is no change in the annual hour burden or the annual cost burden.

Incumbent local exchange carriers (LECs) file their tariffs and associated documents electronically, using ETFS. ETFS has improved the usefulness of tariff filings for both filers and the public and made the entire tariff filing process more transparent. The Commission received OMB approval for the NPRM in 2010.

The Commission released a Report and Order, WC Docket No. 10-141, FCC 11-92, adopting the final rules that were unchanged from those proposed in the NPRM. Therefore, there are no changes to the reporting requirements. In particular, to create a more open, transparent and efficient flow of information to the public, we determined that the benefits of using ETFS for incumbent LEC tariff filings

would also be obtained if all tariff filers filed electronically. Such action will benefit the public and carriers by creating a central system providing online access to all carrier tariffs and related documents filed with the Commission. As such, competitive LECs (and other nondominant carriers) must now file tariffs and associated documents electronically.

Federal Communications Commission.

Total Annual Burden: 334,000 hours.

Total Annual Cost: N/A.

Privacy Impact Assessment: N/A.

Nature and Extent of Confidentiality: The Commission is not requesting that respondents submit confidential information to the Commission. If the applicant requests confidential treatment of their information, they may request confidential treatment under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this information collection after this comment period to obtain the full, three year clearance from the Office of Management and Budget (OMB). The Commission is requesting OMB approval for a revision to this information collection.

This submission proposes revisions to the FCC Form 470 and instructions and FCC Form 471 and instructions. The Commission is revising this collection in an effort to simplify the application process and to better collect information related to the broadband services being ordered by schools and libraries under the E-rate program. We propose collapsing the telecommunications services and Internet access categories into one category of service on the FCC Form 470 to simplify the application process. We also propose eliminating outdated questions that were originally designed to determine the impact of services and create new questions that will better gauge the technology and speed related to E-rate applicants' Internet and broadband connectivity. Specifically, Block 2 of the FCC Form 471, Impact of Service Ordered for Schools and Libraries from this Form 471, will be eliminated and questions asking about broadband and other connectivity services will be added to Block 5 for each funding request. The FCC Form 471 is also revised to allow applicants to indicate whether they are a federal entity. Further, in the Commission's attempt to reduce the number of active information collections, the Commission will incorporate the information collection requirements in OMB Control No. 3060-0774 into to this collection so it can be removed from the OMB inventory.

The Commission requests a total hourly burden change for FCC Forms 470 and 471 from 325,000 burden hours to 334,000 burden hours, which is an increase of 9,000 burden hours. The adjustment reflects updated information received from the Universal Service Administrative Company, the administrator of the schools and libraries universal service support program, and is based on actual participation in the program. Specifically, for the FCC Form 470, the Commission estimates that the number of respondents has remained the same at 35,000 based on the number of forms submitted for funding years 2012 and 2013 reported by USAC. For the FCC Form 471, the Commission estimates that the number of respondents has increased from 45,000 to 47,000 based on the increased number of submitted FCC Forms 471 in funding years 2012 and 2013 as reported by USAC.

The two FCC forms serve the functions of the Universal Service Schools and Libraries Support Mechanism, 47 U.S.C. 254 of the Communications Act of 1934, as amended. They are used at the point where services provided to the program are implemented, or are about to be

implemented, and are a necessary prerequisite to the distribution of payments under the program.

Applicants in the E-rate program must submit an FCC Form 470 with a description of the services needed to USAC, which administers the fund. The information from the FCC Form 470 is then posted on USAC's Web site for all potential competing service providers to review. After waiting 28 days, the applicant can enter into an agreement for services. *See* 47 CFR 54.504(b). Applicants and consultants completing the FCC Form 470 must provide basic information on the form, including contact information and demographic information to assist in the processing of the application.

The FCC Form 471 must be filed each year by all E-rate applicants. Once a school or library has complied with the Commission's competitive bidding requirements and entered into an agreement for eligible services, it must file an FCC Form 471 application to notify USAC of the services that have been ordered, the service providers with whom the applicant has entered into an agreement, and an estimate of the funds needed to cover the discounts to be given for eligible services. *See* 47 CFR 54.504(c). Applicants must now provide their FCC Registration Number. *See* 47 CFR 1.8002 and 1.8003.

Besides basic information about the applicant or consultant filling out the form, the form gathers information about the broadband services that the school or library is currently using to help USAC determine the technological needs of the E-rate program. Since economically disadvantaged schools and rural schools receive a greater share of E-rate program funding, the form also contains a discount calculation worksheet for certifying the percentage of students eligible in that school for the national school lunch program (or other acceptable indicators of economic disadvantage determined by the Commission). *See* 47 CFR 54.505(b)(1). Similarly, libraries must make certifications about students eligible for national school lunch programs in nearby areas. *See* 47 CFR 54.505(b)(2). Since rural schools and libraries receive slightly more funding than urban participants, the FCC Form 471 requires applicant's demographic location. *See* 47 CFR 54.505(b)(3).

All of the requirements contained in this information collection are necessary to implement the congressional mandates regarding No Child Left Behind as well as the schools and libraries universal service support program process.

OMB Control Number: 3060-0819.

Title: Lifeline and Link Up Reform and Modernization, Advancing Broadband Availability Through Digital Literacy Training.

Form Numbers: FCC Forms 497, 481, 550, 555, and 560.

Type of Respondents: Individuals or households and business or other for profit.

Type of Review: Revision of a currently approved collection.

Number of Respondents and Responses: 41,806,827 respondents; 41,838,290 responses.

Estimated Time per Response: .25 hours—250 hours.

Frequency of Response: On occasion, quarterly, biennially, one time, monthly, and annual reporting requirements, third party disclosure requirements and recordkeeping requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this collection of information is contained in 47 U.S.C. sections 1, 4(i), 201-205, 214, 254 and 403 of the Communications Act of 1934, as amended.

Total Annual Burden: 24,184,565 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: Yes.

Nature and Extent of Confidentiality: The changes proposed in the 2012 Lifeline Reform Order affects individuals or households, and thus, there are impacts under the Privacy Act. As required by the Privacy Act of 1974, as amended, 5 U.S.C. 552a, the Commission will create a system of records notice (SORN) to cover the collection, storage, maintenance and disposal (when appropriate) of any personally identifiable information that the Commission may collect as part of the information collection. We note that USAC must preserve the confidentiality of all data obtained from respondents and contributors to the universal service support program mechanism, must not use the data except for purposes of administering the universal service support program mechanism, must not disclose data in company-specific form unless directed to do so by the Commission. If the Commission requests information that respondents believe is confidential, respondents may request confidential treatment of such information under 47 U.S.C. section 0.459 of the Commission's rules.

Needs and Uses: This collection is being submitted as a revision.

In this submission to the OMB, the Commission proposes to make administrative revisions to the FCC Form 555 to improve the clarity of the form and instructions. The Commission also proposes to revised FCC Form 555

Section 2 to require ETCs to report the number of subscribers claimed on their February FCC Form 497 for the current FCC Form 555 calendar year that were initially enrolled during that calendar year. Further, we propose to revise Section 3 to require the ETCs to report the percentage of de-enrolled subscribers. Finally, we propose to revise Section 4 to require the ETCs to identify whether they are "Pre-Paid ETC" that are in compliance with Section 54.407. See 47 CFR 54.407.

The Commission also proposes revision to the Broadband Pilot Program. The broadband pilot program is aimed at generating statistically significant data that will allow the Commission, ETCs, and the public to analyze the effectiveness of different approaches to using Lifeline funds to making broadband more affordable for low-income Americans while providing support that is sufficient but not excessive. By Order, on December 19, 2012, the Commission selected 14 projects to participate in the broadband pilot program. Therefore, there is no further need to solicit proposals from respondents for the Broadband Pilot Program. In this submission to the OMB, the Commission proposes to eliminate the call for Broadband Pilot Program proposals, which was included in the previous revision. The Commission also proposes revisions to FCC Form 550—Low Income Broadband Reimbursement Form and FCC Form 560—Low Income Broadband Pilot Program Reporting Form). In the previous revision, the Commission estimated the number of respondents for the FCC Forms 550 and 560 because the pilot program participants had not been selected at that time. The Commission proposes revised calculations for the burden hours associated with the FCC Forms 550 and 560 based on the actual number of pilot program participants. See the Commission's 60 day notice published on August 23, 2013 (78 FR 52528) for further details.

Title: Certification by Administrative Authority to Billed Entity Compliance with the Children's Internet Protection Act Form, FCC Form 479; Certification of Compliance with the Children's Internet Protection Act and Technology Plan Requirements Form, FCC Form 486; and Funding Commitment Adjustment Request Form, FCC Form 500.

Form Numbers: FCC Forms 479, 486 and 500.

Type of Review: Revision of a currently approved collection

Respondents: Business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents and Responses: 90,700 respondents, 90,700 responses.

Estimated Time per Response: 1–1.5 hours.

Frequency of Response: On occasion and annual reporting requirements, recordkeeping requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151–154, 201–205, 218–220, 254, 303(r), 403, and 405.

Total Annual Burden: 104,650 hours.

Total Annual Cost: NA.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: The Commission is not requesting that respondents submit confidential information to the Commission. If the Commission requests applicants to submit information that the respondents believe is confidential, respondents may request confidential treatment of their information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) as a revision to a currently approved collection.

This submission revises the FCC Form 479 and instructions, FCC Form 486 and instructions, and FCC Form 500 and instructions. FCC Forms 479 and 486 include revisions to existing certifications to improve clarity and ensure consistency with the Commission's rules. FCC Form 500 includes revisions that allow applicants the option to use the FCC Form 500 to: (1) Seek extensions of the implementation deadline for non-recurring services from the Universal Service Administrative Company (USAC) under 47 CFR 54.507(d) of the Commission's rules; and/or (2) notify USAC when they are transferring equipment within the three year prohibition on equipment transfers due to a permanent or temporary closure of school or library facilities under 47 CFR 54.413 of the Commission's rules.

The Commission requests a total hourly burden change for FCC Forms 479, 486 and 500 from 70,000 burden hours to 104,650 burden hours, which is an increase of 34,650 burden hours. We made adjustments in the burden hours for each of these forms to account for updated information received from the Universal Service Administrative Company, the administrator of the schools and libraries universal service support program. This estimate is based

on actual participation in the program. Specifically, for the FCC Form 479, the Commission estimates that the number of respondents has increased from 10,000 to 10,300 based on the number of consortia participants for funding year 2011 and 2012 reported by USAC. For the FCC Form 486, the Commission estimates that the number of respondents has increased from 30,000 to 38,500 based on the increased number of submitted FCC Forms 486 as reported by USAC. For the FCC Form 500, the Commission increased the number of respondents from 5,000 to 6,900 based on the actual FCC Forms 500 submitted in funding year 2011 as reported by USAC and to account for the potential transfer of the requirements covered by information collections for OMB Control Numbers 3060–0992 and 3060–1062 to this information collection. The requirements covered by these collections are being moved to the FCC Form 500, and OMB Control Numbers 3060–0992 and 3060–1062 will be discontinued once this revision is approved. The burden hours were also adjusted to reflect the Commission's revised estimates of the hours required to update and maintain Internet safety policies. The Commission adjusts the number of respondents from 30,000 to 35,000 and adjusts the burden hours per response from .25 to .75. The Commission estimates that the number of respondents should be adjusted based on inclusion of the number of respondents for both the FCC Form 479 and FCC Form 486. The Commission estimates the initial year of compliance with the schools-only requirement to update Internet safety policies to provide for education of minors about appropriate online behavior, including interacting with other individuals on social networking Web sites and in chat rooms and cyber bullying awareness and response (as required by the Protecting Children in the 21st Century Act) will require .75 burden hours per response. This is an adjustment from the previously reported estimate of .25 burden hours per response.

The three FCC forms serve the functions of the Universal Service Schools and Libraries Support Mechanism, 47 U.S.C. 254 of the Communications Act of 1934, as amended. They are used at the point where services provided to the program are implemented, or are about to be implemented, and are a necessary prerequisite to the distribution of payments under the program.

FCC Forms 479 and 486 enable participants in the program to certify that they are compliant with the

Children's Internet Protection Act (CIPA), 47 U.S.C. 254(h) and (l) when they seek discounts for Internet access, internal connections and basic maintenance of internal connections. With the exception of program participants who receive only telecommunications services, CIPA compliance is a necessary prerequisite to invoicing and payment. CIPA provides that schools and libraries that have computers with Internet access must certify that they have in place certain Internet safety policies and technology protection measures in order to be eligible to receive program services under section 254(h) of the Communications Act of 1934 (the Act), as amended. 47 CFR 54.520. FCC Form 486 also is the form that school and library applicants use to notify USAC of their service start date and certify compliance with E-rate program technology plan requirements.

School and library applicants use the FCC Form 500 to make adjustments to previously filed forms, such as changing the contract expiration date filed with the FCC Form 471, changing the funding year service start date filed with the FCC Form 486, or cancelling or reducing the amount of funding commitments.

All of the requirements contained in this information collection are necessary to implement the congressional mandates regarding access to the Internet by minors and adults as well as the schools and libraries universal service support program and reimbursement process.

SUPPLEMENTARY INFORMATION: The FDIC is requesting comment on the following revision of an information collection:

Annual Stress Test Reporting Template and Documentation for Covered Banks With Total Consolidated Assets of \$10 Billion to \$50 Billion Under the Dodd-Frank Wall Street Reform and Consumer Protection Act

Section 165(i)(2) of the Dodd-Frank Wall Street Reform and Consumer Protection Act¹ (Dodd-Frank Act) requires certain financial companies, including state nonmember banks and state savings associations, to conduct annual stress tests² and requires the primary financial regulatory agency³ of those financial companies to issue regulations implementing the stress test requirements.⁴ A state nonmember bank or state savings association is a "covered bank" and therefore subject to the stress test requirements if its total consolidated assets exceed \$10 billion. Under section 165(i)(2), a covered bank is required to submit to the Board of Governors of the Federal Reserve System (Board) and to its primary financial regulatory agency a report at such time, in such form, and containing such information as the primary financial regulatory agency may require.⁵ On October 15, 2012, the FDIC published in the **Federal Register** a final rule implementing the section 165(i)(2) annual stress test requirement.⁶ This notice describes the reports and information required to meet the reporting requirements under section 165(i)(2) for covered banks with total consolidated assets of \$10 billion to \$50 billion. These information collections will be given confidential treatment to the extent allowed by law (5 U.S.C. 552(b)(4)).

The FDIC intends to use the data collected through these proposed templates to assess the reasonableness of the stress test results of covered banks and to provide forward-looking information to the FDIC regarding a covered bank's capital adequacy. The FDIC also may use the results of the stress tests to determine whether additional analytical techniques and exercises could be appropriate to identify, measure, and monitor risks at the covered bank. The stress test results are expected to support ongoing improvement in a covered bank's stress testing practices with respect to its internal assessments of capital adequacy and overall capital planning.
