

SUMMARY: NMFS is opening directed fishing for pollock in Statistical Area 620 of the Gulf of Alaska (GOA). This action is necessary to fully use the 2013 total allowable catch of pollock in Statistical Area 620 of the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), October 22, 2013, through 1200 hrs, A.l.t., November 1, 2013. Comments must be received at the following address no later than 4:30 p.m., A.l.t., November 5, 2013.

ADDRESSES: You may submit comments on this document, identified by NOAA–NMFS–2012–0180 by any of the following methods:

- *Electronic Submission:* Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov/

- *#!docketDetail;D=NOAA-NMFS-2012-0180*, click the “Comment Now!” icon, complete the required fields, and enter or attach your comments.

- *Mail:* Address written comments to Glenn Merrill, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region NMFS, Attn: Ellen Sebastian. Mail comments to P.O. Box 21668, Juneau, AK 99802–1668.

- *Fax:* Address written comments to Glenn Merrill, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region NMFS, Attn: Ellen Sebastian. Fax comments to 907–586–7557.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous). Attachments to electronic comments will be accepted in Microsoft Word, Excel, or Adobe PDF file formats only.

FOR FURTHER INFORMATION CONTACT: Josh Keaton, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing

fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

NMFS closed directed fishing for pollock in Statistical Area 620 of the GOA under § 679.20(d)(1)(iii) on October 7, 2013 (78 FR 61990, October 10, 2013).

As of October 17, 2013, NMFS has determined that approximately 3,553 metric tons of pollock remain in the directed fishing allowance for pollock in Statistical Area 620 of the GOA. Therefore, in accordance with § 679.25(a)(1)(i), (a)(2)(i)(C), and (a)(2)(iii)(D), and to fully utilize the 2013 TAC of pollock in Statistical Area 620 of the GOA, NMFS is terminating the previous closure and is reopening directed fishing pollock in Statistical Area 620 of the GOA, effective 1200 hrs, A.l.t., October 22, 2013.

The Administrator, Alaska Region (Regional Administrator) considered the following factors in reaching this decision: (1) The current catch of pollock in Statistical Area 620 of the GOA and, (2) the harvest capacity and stated intent on future harvesting patterns of vessels in participating in this fishery.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the opening of the directed pollock fishery in Statistical Area 620 of the GOA. Immediate notification is necessary to allow for the orderly conduct and efficient operation of this fishery, to allow the industry to plan for the fishing season, and to avoid potential disruption to the fishing fleet and processors. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of October 17, 2013.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

Without this inseason adjustment, NMFS could not allow pollock fishery in Statistical Area 620 of the GOA to be harvested in an expedient manner and in accordance with the regulatory schedule. Under § 679.25(c)(2), interested persons are invited to submit written comments on this action to the above address until November 5, 2013.

This action is required by § 679.25 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 21, 2013.

Kelly Denit,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 130408348–3835–02]

RIN 0648–XC906

Fisheries of the Northeastern United States; Atlantic Herring Fishery; Sub-Annual Catch Limit (ACL) Harvested for Management Area 3

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: Effective 1200 hr, October 24, 2013, federally permitted vessels may not fish for, catch, possess, transfer, or land more than 2,000 lb (907.2 kg) of Atlantic herring (herring) per trip or calendar day in or from Management Area 3 until January 1, 2014, when the 2014 allocation for Area 3 becomes available. This action is required because NMFS projects that 92 percent of the catch limit for that area was caught as of October 18, 2013. Vessels that have entered port before 1200 hr, October 24, 2013, may possess, offload, and sell more than 2,000 lb of herring from Area 3, from that trip. Also effective 1200 hr, October 24, 2013, federally permitted dealers may not receive more than 2,000 lb (907.2 kg) of herring caught within Management Area 3 per trip or calendar day, unless it is from a trip landed by a vessel that entered port before 1200 hr, October 24, 2013.

DATES: Effective 1200 hr local time, October 24, 2013, through December 31, 2013.

FOR FURTHER INFORMATION CONTACT:

Christopher Biegel, Fishery Management Specialist, (978) 281-9112.

SUPPLEMENTARY INFORMATION: The reader can find regulations governing the herring fishery at 50 CFR part 648. The regulations require annual specification of the overfishing limit, acceptable biological catch, annual catch limit (ACL), optimum yield, domestic harvest and processing, U.S. at-sea processing, border transfer, and sub-ACLs for each management area. The 2013 Domestic Annual Harvest is 107,800 metric tons (mt); the 2013 sub-ACL allocated to Area 3 is 42,000 mt, and 0 mt of the sub-ACL is set aside for research (October 4, 2013, 78 FR 61828).

The regulations at § 648.201 require that when the Administrator, Northeast Region, NMFS (Regional Administrator) projects herring catch will reach 92 percent of the sub-ACL allocated in any of the four management areas designated in the Atlantic Herring Fishery Management Plan (FMP), NMFS must prohibit herring vessel permit holders from fishing for, catching, possessing, transferring, or landing more than 2,000 lb (907.2 kg) of herring per trip or calendar day in or from the specified management area for the remainder of the fishing year. The Regional Administrator monitors the herring fishery catch in each of the management areas based upon dealer reports, state data, and other available information. NMFS must publish notification in the **Federal Register** of the date that the catch is projected to reach 92 percent of the management area sub-ACL and reduced trip limit period. Vessels that have entered port before the reduced trip limit period may

offload and sell more than 2,000 lb (907.2 kg) of herring from Area 3, from that trip. During the reduced trip limit period, vessels may transit Area 3 with more than 2,000 lb (907.2 kg) of herring on board only under the conditions specified below.

The Regional Administrator has determined, based on dealer reports and other available information, that the herring fleet will have caught 92 percent of the total herring sub-ACL allocated to Area 3 by October 18, 2013. In order to give the herring fleet sufficient time to comply with this reduced trip limit, effective 1200 hr local time, October 24, 2013, federally permitted vessels may not fish for, catch, possess, transfer, or land more than 2,000 lb (907.2 kg) of herring per trip or calendar day, in or from Area 3 through December 31, 2013, except that vessels that have entered port before 1200 hr on October 24, 2013, may offload and sell more than 2,000 lb (907.2 kg) of herring from Area 3, from that trip after the closure. During the reduced trip limit period, a vessel may transit through Area 3 with more than 2,000 lb (907.2 kg) of herring on board, provided the vessel did not catch the herring in Area 3 and stows all fishing gear aboard, making it unavailable for immediate use as required by § 648.23(b). Effective 1200 hr on October 24, 2013, NMFS also advises federally permitted dealers that they may not receive herring from federally permitted herring vessels that harvest more than 2,000 lb (907.2 kg) of herring from Area 3 through 2400 hr local time, December 31, 2013, unless it is from a trip landed by a vessel that entered port before 1200 hr on October 24, 2013.

Classification

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866.

NMFS finds good cause pursuant to 5 U.S.C. 553(b)(B) to waive prior notice and the opportunity for public comment because it would be contrary to the public interest and impracticable. This action reduces the trip limit to 2,000 lb (907.2 kg) for Management Area 3 until January 1, 2014, under current regulations. The regulations at § 648.201(a) require such action to ensure that herring vessels do not exceed the 2013 sub-ACL allocated to Area 3. The herring fishery opened for the 2013 fishing year on January 1, 2013. Data indicating the herring fleet will have landed at least 92 percent of the 2013 sub-ACL allocated to Area 3 have only recently become available. If implementation of this reduced trip limit period is delayed to solicit prior public comment, the sub-ACL for Area 3 for this fishing year may be exceeded, thereby undermining the conservation objectives of the FMP. If sub-ACLs are exceeded, the excess must also be deducted from a future sub-ACL and would reduce future fishing opportunities. NMFS further finds, pursuant to 5 U.S.C. 553(d)(3), good cause to waive the 30-day delayed effectiveness period for the reasons stated above.
