Form Number(s): NA.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 46.

Average Hours per Response: Scientific research, monitoring or habitat restoration exceptions, state and individual research plans/applications, 40 hours each; fishery management and evaluation plans and tribal plans, 160 hours each; reports, 5 or 20 hours, depending on the research or plan.

The Southern Distinct Population Segment of North American green sturgeon (*Acipenser medirostris*; hereafter, "Southern DPS") was listed as a threatened species in April 2006. Protective regulations under section 4(d) of the Endangered Species Act (ESA) were promulgated for the species on June 2, 2010 (75 FR 30714) (the final ESA 4(d) Rule). To comply with the ESA and the protective regulations, entities must obtain take authorization prior to engaging in activities involving take of Southern DPS fish unless the activity is covered by an exception or exemption. Certain activities described in the "exceptions" provision of 50 CFR 223.210(b) are not subject to the take prohibitions if they adhere to specific criteria and reporting requirements. Under the "exemption" provision of 50 CFR 223.210(c), the take prohibitions do not apply to scientific research, scientific monitoring, and fisheries activities conducted under an approved 4(d) program or plan; similarly, take prohibitions do not apply to tribal

resource management activities conducted under a Tribal Plan for which the requisite determinations described in 50 CFR 223.102(c)(3) have been made. In order to ensure that activities qualify under exceptions to or exemptions from the take prohibitions, local, state, and federal agencies, non-governmental organizations, academic researchers, and private organizations are asked to voluntarily submit detailed information regarding their activity on a schedule to be determined by National Marine Fisheries Service (NMFS) staff. This information is used by NMFS to (1) Track the number of Southern DPS fish taken as a result of each action; (2) understand and evaluate the cumulative effects of each action on the Southern DPS; and (3) determine whether additional protections are needed for the species, or whether additional exceptions may be warranted.

Affected Public: State, local and tribal governments, not-for-profit institutions.

Frequency: Annually, biannually and on occasion.

Respondent's Obligation: Required to obtain or maintain benefits.

OMB Desk Officer: OIRA_Submission@omb.eop.gov.
