Please note that written comments received in response to this notice will be considered public records.

*Title of Collection:* Student Assistance General Provisions—Subpart K—Cash Management.

As of July 1, 2012, the new law eliminated all but the completion of a homeschool program as an eligibility alternative previously available. Due to these changes, there is a decreasing pool of student applicants who would be eligible to take a Department approved ability to benefit exam to determine Title IV student aid eligibility.

**SUPPLEMENTARY INFORMATION:** Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On September 13, 2013, DOE received an application from TEC for authority to transmit electric energy from the United States to Canada for five years as a power marketer using existing international transmission facilities. TEC does not own any electric transmission facilities nor does it hold a franchised service area. TEC states that it will make all of the necessary commercial arrangements and will obtain any and all of the required regulatory approvals.

The electric energy that TEC proposes to export to Canada would be surplus energy purchased from electric utilities and other entities within the United States. The existing international transmission facilities to be utilized by TEC have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

*Procedural Matters:* Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal

Energy Regulatory Commission's (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments on the TEC application to export electric energy to Canada should be clearly marked with OE Docket No. EA–388. An additional copy is to be provided directly to Etienne Lapointe, Chief Financial Officer, TEC Energy Inc., 112 Place Terroux, St-Lambert, Quebec, Canada J4R2W2 and Legalinc Corporate Services Inc, 35–15 84th Street, 2H, Jackson Heights, NY 11372. A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at <http://energy.gov/node/11845>, or by emailing Angela Troy at [Angela.Troy@hq.doe.gov](mailto:Angela.Troy@hq.doe.gov).
