Wisconsin. The Agricultural Marketing Agreement Act of 1937 was designed to permit regulation of certain agricultural commodities for the purpose of providing orderly marketing conditions in inter and intrastate commerce and improving returns to growers. The primary objective of the Order is to stabilize the supply of tart cherries. Only tart cherries that will be canned or frozen will be regulated. The Order is administered by an 18 member Board comprised of producers, handlers and one public member, plus alternates for each. The members will serve for a three-year term of office.

Need and Use of the Information: Various forms were developed by the Board for persons to file required information relating to tart cherry inventories, shipments, diversions and other needed information to effectively carry out the requirements of the Order. The information collected is used to ensure compliance, verify eligibility, and vote on amendments, monitor and record grower's information. Authorized Board employees and the industry are the primary users of the information. If information were not collected, it would eliminate needed data to keep the industry and the Secretary abreast of changes at the State and local level.

Description of Respondents: Business or other for profit; not-for-profit institutions.

Number of Respondents: 640. Frequency of Responses: Reporting: Annually; quarterly; on occasion. Total Burden Hours: 727.

Charlene Parker.

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

October 25, 2013.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be

collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by November 29, 2013 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725 17th Street NW., Washington, DC 20502. Commenters are encouraged to submit their comments to OMB via email to: OIRA Submission@ OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OČIO, Mail Stop 7602, Washington, DC 20250-7602. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: Highly Pathogenic Avian Influenza, All Subtypes, and Newcastle Disease; Additional Restrictions.

OMB Control Number: 0579–0245. Summary of Collection: The Animal Health Protection Act (AHPA), 7 U.S.C 8301, is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect. control, or eradicate pests or diseases of livestock or poultry. The agency charged with carrying out this disease prevention mission is the Animal and Plant Health Inspection Service (APHIS), through its Veterinary Services (VS) Program. Highly pathogenic avian influenza (HPAI) and Newcastle Disease are extremely infectious and often fatal disease affecting all types of birds and

Need and Use of the Information: To protect the United States against an incursion of HPAI and Newcastle Disease, APHIS requires the use of several information collection activities, including an USDA-APHIS-VS Application For Permit To Import or Transport Controlled Materials or

Organisms or Vectors (VS Form 16–3); a United States Veterinary Permit for Importation and Transportation of Controlled Materials and Organisms and Vectors (VS Form 16-6A); an Application for Approval or Report of Inspection Establishment Handling Restricted Animal Byproducts or Controlled Materials (VS Form 16-25); USDA-APHIS-VS Agreement for Handling Restricted Imports of Animal By-Products and Controlled Materials (VS Form 16-26); USDA-APHIS-VS Report of Entry, Shipment of Restricted Imported Animal Products and Animal By-Products, and Other Material (VS Form 16-78); USDA-APHIS-VS Application for Import or in Transit Permit (Animals, Animal Semen, Animal Embryos, Birds, Poultry, and Hatching Eggs) (VS Form 17-129); USDA-APHIS Agreement of Pet Bird Owner (VS Form 17–8); application of seals and agreements; notarized declaration or affirmation; notification of signs of disease in a recently imported bird; cooperative service agreements, and recordkeeping by processing establishments. APHIS will collect information to ensure that U.S. birds and poultry undergo appropriate examinations before entering the United States. Without the information, it would be impossible for APHIS to establish an effective line of defense against an introduction of HPAI and Newcastle Disease.

Description of Respondents: Individuals or households; Business or other for-profit; Not-for-profit institutions; Federal Government.

Number of Respondents: 1,680. Frequency of Responses: Reporting and Recordkeeping: On occasion. Total Burden Hours: 1,055.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

October 23, 2013.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by November 29, 2013 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725 17th Street NW., Washington, DC 20502. Commenters are encouraged to submit their comments to OMB via email to: OIRA Submission@ OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OČIO, Mail Stop 7602, Washington, DC 20250-7602. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: Importation of Unshu Oranges. OMB Control Number: 0579–0173. Summary of Collection: The Plant Protection Act (7 U.S.C. 7701–7772) authorizes the Secretary of Agriculture to restrict the importation, entry or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pest in the United States or their dissemination within the United States. The regulations in "Subpart-Citrus Fruit" (7 CFR 319.28) allow the importation of unshu oranges from Kyushu Island and Honshu Island, Japan, into the United States under certain conditions. A certificate must accompany the unshu oranges from the Japanese plant protection service certifying that the fruit is apparently free of citrus canker.

Need and Use of the Information: The Animal and Plant Health Inspection (APHIS) will collect information using form PPQ 203, Foreign Site Certificate of Inspection and/or Treatment, PPO 587, Application for Permit to Import Plants or Plant Products and box labeling. The information from the forms will be used to certify that unshu oranges from Japan are free of citrus canker. To ensure that the oranges from Kyushu Island are not imported into citrus-producing areas of the United States such as Florida and California, individuals boxes must be stamped or printed with a statement specifying the State into which the oranges may be imported and from which they are prohibited removal under a Federal quarantine. Failing to collect this information would cripple APHIS' ability to ensure that Unshu oranges from Japan are not carrying citrus canker.

Description of Respondents: Business or other for-profit; State, Local or Tribal Government.

Number of Respondents: 23. Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 5,535.

Ruth Brown,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE

Forest Service

Southwestern Region: Invasive Plant Control Project, Carson and Santa Fe National Forests, New Mexico

AGENCY: Forest Service, USDA.

ACTION: Notice; correction.

SUMMARY: On December 15, 2000, the USDA Forest Service published a notice of intent (NOI) in the Federal Register (65 FR 78464) to prepare an environmental impact statement (EIS) for controlling invasive plants in the Carson and Santa Fe National Forests. The agency published a notice of availability (NOA) for the Draft EIS in the Federal Register (69 FR 42722) on July 16, 2004. A record of decision was signed on September 12, 2005 and an NOA was subsequently published in the Federal Register (70 FR 69967) on November 18, 2005. Members of the public appealed the decision before the Regional Forester of the Southwestern Region, who reviewed the decision in accordance with 36 CFR 215.7. The Regional Forester's decision, issued on February 23, 2006, reversed the Responsible Officials' decision on the project, with the following instructions:

(1) Complete the analysis of effects on the Management Indicator Species population trend for ptarmigan.

(2) Strengthen the disclosure of cumulative effects to wildlife species.

(3) Address the concern about the use of picloram in municipal watersheds.

On September 10, 2009, the USDA Forest Service published a corrected NOI in the **Federal Register** (74 FR 46562). The NOI listed the date of completion and distribution for the draft supplemental environmental impact statement (DSEIS) as being December 2009.

DATES: Revised dates: It is estimated the DSEIS will be completed and available for review no later than March 31, 2014. A 45-day comment period will follow. The Forest Service estimates the final supplemental environmental impact statement (FSEIS) and draft records of decision (each forest is preparing its own record of decision) will be released in July 2014. Pursuant to 36 CFR 218, a 45-day objection period will follow. The final records of decision are expected to be released no later than December 2014.

ADDRESSES: The DSEIS will be posted on these Web sites:

Carson National Forest: http:// www.fs.usda.gov/land/carson/ landmanagement

Santa Fe National Forest: http:// www.fs.usda.gov/projects/santafe/ landmanagement

A limited number of paper copies will be available upon request from either forest: Carson Forest Supervisor's Office, 208 Cruz Alta Road, Taos, NM 87571, Attn: Planning; or Santa Fe National Forest Supervisor's Office, 11 Forest Lane, Santa Fe, NM 87508, Attn: Julie Bain. The address to which to send comments will be published with the DSEIS.

FOR FURTHER INFORMATION CONTACT: Julie Bain, Forest Environmental Coordinator, Santa Fe National Forest Supervisor's Office, 11 Forest Lane, Santa Fe, NM 87508, (505) 438–5443, jbain@fs.fed.us.

SUPPLEMENTARY INFORMATION: An SEIS is needed to update certain elements of the analysis and correct deficiencies identified in the 2005 Invasive Plant Control Project Final Environmental Impact Statement and records of decision. The DSEIS will document the analysis of effects for the same range of alternatives as the 2005 final EIS. The proposed action, which includes the use of herbicides to control invasive species, remains the preferred alternative. The Forest Supervisors of the Carson and Santa Fe National Forests are the responsible officials. Each responsible
