

DEPARTMENT OF ENERGY**State Energy Advisory Board (STEAB)**

AGENCY: Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces a Board meeting of the State Energy Advisory Board (STEAB). The Federal Advisory Committee Act (Pub. L. 92-463; 86 Stat.770) requires that public notice of these meetings be announced in the **Federal Register**.

DATES: December 3, 2013: 9:00 a.m. to 5:00 p.m.; December 4, 2013 9:00 a.m. to 5:00 p.m.

ADDRESSES: The Fairfax at Embassy Row, 2100 Massachusetts Ave. NW., Washington, DC 20008.

FOR FURTHER INFORMATION CONTACT: Julie Hughes, STEAB Designated Federal Officer, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, 1000 Independence Ave. SW., Washington, DC 20585; telephone: (202) 320-9703, or by email at: Julie.Hughes@ee.doe.gov.

SUPPLEMENTARY INFORMATION:

Purpose of the Board: To make recommendations to the Assistant Secretary for the Office of Energy Efficiency and Renewable Energy regarding goals and objectives, programmatic and administrative policies, and to otherwise carry out the Board's responsibilities as designated in the State Energy Efficiency Programs Improvement Act of 1990 (Pub. L. 101-440).

Tentative Agenda: Receive in-person updates and reviews of accomplishment of STEAB's Subcommittee and Taskforces, meet with key members of DOE's Office of Energy Efficiency and Renewable Energy (EERE) to discuss current initiatives and programs, participate in round-table discussions with EERE Program Directors, explore energy innovative financing options, discuss strategic planning opportunities, and update the Board on routine business matters and other topics of interest.

Public Participation: The meeting is open to the public. Written statements may be filed with the Board either before or after the meeting. Members of the public who wish to make oral statements pertaining to agenda items should contact Julie Hughes at the address or telephone number listed above. Requests to make oral comments must be received five days prior to the meeting; reasonable provision will be made to include requested topic(s) on

the agenda. The Chair of the Board is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business.

Minutes: The minutes of the meeting will be available for public review and copying within 90 days on the STEAB Web site, www.steab.org.

Issued at Washington, DC, on October 24, 2013.

LaTanya Butler,

Deputy Committee Management Officer.

[Project No. 13629-002]

Coleman Hydro, LLC; Notice of Application Ready for Environmental Analysis and Soliciting Comments, Recommendations, Terms and Conditions, and Prescriptions

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection.

a. *Type of Application:* Minor Original License.

b. *Project No.:* 13629-002.

c. *Date filed:* April 22, 2011.

d. *Applicant:* Coleman Hydro, LLC.

e. *Name of Project:* Coleman Hydroelectric Project.

f. *Location:* On Little Timber Creek near the Town of Leodore in Lemhi County, Idaho. The project would be located on private lands.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791 (a)-825(r).

h. *Applicant Contact:* Mr. Nicholas E. Josten, c/o Geosense, 2742 Saint Charles Avenue, Idaho Falls, ID 83404; (208) 528-6152; email—gsense@cablone.net.

i. *FERC Contact:* Joseph Hassell at (202) 502-8079; or email at joseph.hassell@ferc.gov.

j. *Deadline for filing comments, recommendations, terms and conditions, and prescriptions:* 60 days from the issuance date of this notice; reply comments are due 105 days from the issuance date of this notice.

The Commission strongly encourages electronic filing. Please file motions to intervene and protests, comments, terms and conditions, recommendations, and prescriptions using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at [\[www.ferc.gov/docs-filing/ecomment.asp\]\(http://www.ferc.gov/docs-filing/ecomment.asp\). You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at \[FERCOnlineSupport@ferc.gov\]\(mailto:FERCOnlineSupport@ferc.gov\), \(866\) 208-3676 \(toll free\), or \(202\) 502-8659 \(TTY\). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. The first page of any filing should include docket number P-13629-002.](http://</p>
</div>
<div data-bbox=)

The Commission's Rules of Practice require all intervenors filing documents with the Commission to serve a copy of that document on each person on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. This application has been accepted and is now ready for environmental analysis.

l. The proposed project would use the water from two existing irrigation diversions from Little Timber Creek, and would consist of the following new facilities: (1) A new intake structure and fish screen; (2) a new 26,700-foot-long penstock; (3) a powerhouse containing a 750-kilowatt Pelton turbine and 750-kilowatt generator; (4) a new 6.7-mile-long, 12.5-kilovolt electric transmission line; and (5) appurtenant facilities. The project would produce an estimated 2,200 megawatt-hours annually.

The proposed project would use water that currently flows into two unlined irrigation ditches that divert water from Little Timber Creek. The project would combine those two diversions into a single diversion at a new screened intake. The location of the new intake structure would be at the same location as the most downstream ditch diversion. Water would flow through the new intake structure into a 26,700-foot-long steel and plastic penstock to the powerhouse. After passing through the powerhouse, the water would be used for irrigation.

m. A copy of the application is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support. A copy is also available for inspection and reproduction at the address in item h above.
