

**SUMMARY:** The National Science Foundation (NSF) is announcing plans to request clearance of this collection. In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 (Pub. L. 104–13), we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting that OMB approve clearance of this collection for no longer than three years.

**DATES:** Written comments on this notice must be received by December 30, 2013 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

**FOR ADDITIONAL INFORMATION OR**

**COMMENTS:** Contact Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230; telephone (703) 292–7556; or send email to [spimpto@nsf.gov](mailto:spimpto@nsf.gov). Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday. You also may obtain a copy of the data collection instrument and instructions from Ms. Plimpton.

**SUPPLEMENTARY INFORMATION:**

*Title of Collection:* Awardee Reporting Requirements for the Experimental Program to Stimulate Competitive Research (EPSCoR) Research Infrastructure Improvement Track-1 (RII Track-1) Program.

*OMB Number:* 3145–NEW.

*Expiration Date of Approval:* Not applicable.

*Type of Request:* Intent to seek approval to establish an information collection.

*Abstract:*

*Proposed Project:*

The Experimental Program to Stimulate Competitive Research (EPSCoR) Research Infrastructure Improvement Track-1 (RII Track-1) Program advances science and engineering capabilities in EPSCoR jurisdictions for discovery, innovation and overall knowledge-based prosperity. EPSCoR RII Track-1 projects build human, cyber, and physical infrastructure in EPSCoR jurisdictions, stimulating sustainable improvements in their Research & Development (R&D) capacity and competitiveness.

EPSCoR RII Track-1 projects are founded on key research themes that empower knowledge generation, dissemination and application. They are generally inter- (or multi-)disciplinary and involve effective jurisdictional and

regional collaborations among academic, government and private sector stakeholders that advance scientific research, promote innovation and provide multiple societal benefits; and they broaden participation in science and engineering by engaging multiple institutions and organizations at all levels of research and education, and people within and among (EPSCoR jurisdictions).

EPSCoR RII Track-1 projects are required to submit annual reports on progress and plans, which are used as a basis for performance review and determining the level of continued funding. To support this review and the management of an EPSCoR RII Track-1 project, project teams are required to develop a set of performance indicators for building sustainable infrastructure and capacity in terms of a strategic plan for the project; measure performance and revise strategies as appropriate; report on the progress relative to the project's goals and milestones; and describe changes in strategies, if any, for submission annually to NSF. These indicators are both quantitative and descriptive and may include, for example, the characteristics of project personnel and students; aggregate demographics of participants; sources of financial support and in-kind support; expenditures by operational component; characteristics of industrial and/or other sector participation; research activities; workforce development activities; external engagement activities; patents and patent licenses; publications; degrees granted to students involved in project activities; and descriptions of significant advances and other outcomes of the EPSCoR RII Track-1 project's efforts. Part of this reporting takes the form of several spreadsheets to capture specific information to demonstrate progress towards achieving the goals of the program. Such reporting requirements are included in the cooperative agreement which is binding between the awardee institution and NSF.

Each project's annual report addresses the following categories of activities: (1) Research, (2) education, (3) workforce development, (4) partnerships and collaborations, (5) communication and dissemination, (6) sustainability, (7) diversity, (8) management, and (9) evaluation and assessment.

For each of the categories the report is required to describe overall objectives for the year; specific accomplishments, impacts, outputs and outcomes; problems or challenges the project has encountered in making progress towards goals; and anticipated problems in performance during the following year.

*Use of the Information:* NSF will use the information to continue funding of the EPSCoR RII Track-1 projects, and to evaluate the progress of the program.

*Estimate of Burden:* 100 hours per project for twenty-nine projects for a total of 2,900 hours.

*Respondents:* Non-profit institutions.

*Estimated Number of Responses per Report:* One

*Comments:* Comments are invited on (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: October 28, 2013.

## NUCLEAR REGULATORY COMMISSION

[Docket No. NRC–2013–0131]

### Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a **Federal Register** notice with a 60-day comment

period on this information collection on July 16, 2013 (78 FR 42555).

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* 10 CFR Part 52, "Licenses, Certifications, and Approvals for Nuclear Power Plants."

3. *Current OMB approval number:* 3150-0151.

4. *The form number if applicable:* N/A.

5. *How often the collection is required:* Whenever applications are made for early site permits (ESPs), standard design certifications (SDCs).

6. *Who will be required or asked to report:* Designers of commercial nuclear power plants (NPPs), electric power companies, and any person eligible under the Atomic Energy Act to apply for ESPs, SDCs, COLs, or MLs.

7. *An estimate of the number of annual responses:* 1,050.

8. *The estimated number of annual respondents:* 20.

9. *An estimate of the total number of hours needed annually to complete the requirement or request:* 199,169 (194,867 reporting, 4,302 recordkeeping).

10. *Abstract:* Part 52 of Title 10 of the Code of Federal Regulations (10 CFR), establishes requirements for the granting of ESPs, certifications of standard NPP designs, and licenses which combine in a single license a construction permit, and an operating license with conditions, OLS, MLs, SDAs, and preapplication reviews of site suitability issues. Part 52 also establishes requirements for renewal of those approvals, permits, certifications, and licenses; amendments to them; exemptions from certifications; and variances from ESPs. The NRC uses the information collected to assess the adequacy and suitability of an applicant's site, plant design, construction, training and experience, plans and procedures for the protection of public health and safety. The NRC review of such information and the findings derived from that information form the basis of NRC decisions and actions concerning the issuance, modification or revocation of site permits, DCs, COLs, and MLs for NPPs.

The public may examine and have copied for a fee publicly available documents, including the final supporting statement, at the NRC's Public Document Room, Room O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. The OMB clearance requests are available at the NRC's Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/>. The document will be available on the

NRC's home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by December 2, 2013. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

Chad Whiteman, Desk Officer, Office of Information and Regulatory Affairs (3150-0151), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be emailed to [Chad\\_S\\_Whiteman@omb.eop.gov](mailto:Chad_S_Whiteman@omb.eop.gov) or submitted by telephone at 202-395-4718.

The NRC Clearance Officer is Tremaine Donnell, telephone: 301-415-6258.

Dated at Rockville, Maryland, this 24th day of October, 2013.

For the Nuclear Regulatory Commission.

**Tremaine Donnell,**

## NUCLEAR REGULATORY COMMISSION

[Docket No. 70-7001; NRC-2013-0099]

### United States Enrichment Corporation, Paducah Gaseous Diffusion Plant

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of permanent cessation of uranium enrichment activities and suspension of staff review.

**SUMMARY:** On April 2, 2013, the United States Enrichment Corporation (USEC) filed an application with the U.S. Nuclear Regulatory Commission (NRC) for the renewal of its Certificate of Compliance (CoC) for the Paducah Gaseous Diffusion Plant (PGDP). The current CoC for PGDP is set to expire on December 31, 2013. The NRC staff found USEC's renewal application acceptable for docketing and published a notice in the *Federal Register* acknowledging the receipt of the application and providing an opportunity for public comment. On June 3, 2013, USEC notified the NRC of its decision to permanently cease uranium enrichment activities at the PGDP. USEC stated that in 2014, it will return the PGDP facilities to the U.S. Department of Energy (DOE), and that it would request termination of its CoC in 2014. For these reasons, the NRC staff hereby gives notice that its review of

USEC's pending renewal application has been suspended. Because the April 2, 2013, application was filed in the required timeframe, in accordance with the NRC's timely renewal regulations, the existing CoC will remain effective until there is a final NRC determination on the renewal application.

**ADDRESSES:** Please refer to Docket ID NRC-2013-0099 when contacting the NRC about the availability of information regarding this document. You may access publicly-available information related to this action by the following methods:

- Federal Rulemaking Web site: Go to <http://www.regulations.gov> and search for Docket ID NRC-2013-0099. Address questions about NRC dockets to Carol Gallagher; telephone: 301-287-3422; email: [Carol.Gallagher@nrc.gov](mailto:Carol.Gallagher@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- NRC's Agencywide Documents Access and Management System (ADAMS): You may access publicly available documents online in the NRC library at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). Copies of USEC's Certificate renewal request (except for classified and proprietary portions which are withheld in accordance with section 2.390 of Title 10 of the *Code of Federal Regulations* (10 CFR), "Availability of Public Records") and the June 3, 2013, letter are available in ADAMS under Accession Nos. ML13105A010 and ML13176A151, respectively.

- NRC's PDR: You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

**FOR FURTHER INFORMATION CONTACT:** Osiris Siurano-Perez, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-287-9070; email: [Osiris.Siurano-Perez@nrc.gov](mailto:Osiris.Siurano-Perez@nrc.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Background

The NRC issued the initial CoC for PGDP on November 26, 1996, authorizing USEC's operation of a uranium enrichment facility in Paducah, Kentucky, using the gaseous
