SOCIAL SECURITY ADMINISTRATION

Agency Information Collection Activities: Proposed Request

The Social Security Administration (SSA) publishes a list of information collection packages requiring clearance by the Office of Management and Budget (OMB) in compliance with Public Law 104-13, the Paperwork Reduction Act of 1995, effective October 1, 1995. This notice includes revisions of OMB-approved information collections.

SSA is soliciting comments on the accuracy of the agency's burden estimate; the need for the information; its practical utility; ways to enhance its quality, utility, and clarity; and ways to

minimize burden on respondents, including the use of automated collection techniques or other forms of information technology. Mail, email, or fax your comments and recommendations on the information collection(s) to the OMB Desk Officer and SSA Reports Clearance Officer at the following addresses or fax numbers.

(OMB), Office of Management and Budget, Attn: Desk Officer for SSA, Fax: 202-395-6974, Email address: *OIRA_Submission@omb.eop.gov*;
 (SSA), Social Security Administration, DCRDP, Attn: Reports Clearance Director, 107 Altmeyer Building, 6401 Security Blvd., Baltimore, MD 21235,

Fax: 410-966-2830, Email address: *OR.Reports.Clearance@ssa.gov*.

The information collections below are pending at SSA. SSA will submit them to OMB within 60 days from the date of this notice. To be sure we consider your comments, we must receive them no later than December 31, 2013. Individuals can obtain copies of the collection instruments by writing to the above email address.

1. Request for Waiver of Special Veterans Benefits (SVB) Overpayment Recovery or Change in Repayment Rate—20 CFR 408.900-408.950-0960-0698. Title VIII of the Social Security Act requires SSA to pay a monthly benefit to qualified World War II

veterans who reside outside the United States. When an overpayment in this SVB occurs, the beneficiary can request a waiver of recovery of the overpayment or a change in the repayment rate. SSA uses the SSA-2032-BK to obtain the information necessary to establish whether the claimant meets the waiver of recovery provisions of the overpayment, and to determine the repayment rate if we do not waive repayment. Respondents are SVB beneficiaries who have overpayments on their Title VIII record and wish to file a claim for waiver of recovery or change in repayment rate.

Type of Request: Revision of an OMB-approved information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)
SSA-2032-BK	450	1	120	900

2. Benefit Offset National Demonstration—0960-0785. SSA is undertaking the Benefit Offset National Demonstration (BOND)—a demonstration and evaluation of policy changes and services on the Social Security Disability Insurance (SSDI) program—in an effort to produce strong evidence about the effectiveness of potential solutions that would improve the historically very low rate of return to work among SSDI beneficiaries. Under current law, Social Security beneficiaries lose their SSDI benefit if they have earnings or work activity above the threshold of Substantial Gainful Activity. The benefit-offset component of this demonstration reduces benefits by \$1 for each \$2 in earnings above the BOND threshold, resulting in a gradual reduction in benefits as earnings increase. The

experimental design for BOND tests a benefit offset alone and in conjunction with enhanced work incentives counseling. The central research questions include:

- What is the effect of the benefit offset alone on employment and other outcomes?
- What is the effect of the benefit offset in combination with enhanced work incentives counseling on employment and other outcomes?

The public survey data collections have four components—an impact study, a cost-benefit analysis, a participation analysis, and a process study. The data collections are a primary source for data to measure the effects of a more generous benefit offset and the provision of enhanced work incentives counseling on SSDI beneficiaries' work efforts and earnings. Ultimately, these data will benefit

researchers, policy analysts, policy makers and the United States Congress in a wide range of program areas. The effects of BOND on the well-being of SSDI beneficiaries could manifest themselves in many dimensions and could be relevant to an array of other public programs. This project offers the first opportunity to obtain reliable measures of these effects based upon a nationally representative sample. The long-term indirect benefits of this research are therefore likely to be substantial. Respondents are SSDI beneficiaries and concurrent SSDI beneficiaries and Supplemental Security Income recipients who we randomly assign to the study (Stage 1), and SSDI beneficiaries who agree to participate in the study (Stage 2).

Type of Request: Revision of an OMB-approved information collection.

Federal Highway Administration

Environmental Impact Statement: Adoption: St. Tammany Parish, LA

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Intent.

SUMMARY: FHWA is issuing this notice of intent to advise the public of its intent to adopt an existing Environmental Impact Statement (EIS) in accordance with the Council on Environment Quality regulations, 40 CFR 1506.3. The final EIS was prepared and approved by the US Army of Engineers, New Orleans District for LA 3241, I-12 to Bush Highway in St. Tammany Parish, Louisiana. The FEIS will be supplemented to include a noise analysis in accordance with 23 CFR part 772, a Section 4(f) evaluation in accordance with 23 CFR part 774, and an analysis of the effects resulting from a change in the location of the connection with LA 434.

FOR FURTHER INFORMATION CONTACT: Carl Highsmith, Project Delivery Team Leader, Louisiana Division, Federal Highway Administration, 5304 Flanders Drive, Suite A, Baton Rouge, LA 70808 Telephone: 225.757.7615. See also the project Web site at <http://www.i12tobush.com>.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Louisiana Department of Transportation and Development (DOTD), intends to adopt an approved Final EIS for the I-12 to Bush Highway in St. Tammany Parish, Louisiana. The EIS was prepared by the US Army Corps of Engineers, New Orleans District, as part of a Section 404 permit application number MVN-2005-00037. The NOI for the EIS appeared in the FR, Volume 73, Number 224, November 19, 2008. The project calls for the construction of a new four-lane highway connecting I-12 to Bush, Louisiana, in St. Tammany Parish. The preferred alternative is approximately 19.8 miles in length and begins at LA 434, north of the existing LA 434 interchange, and traverses in a northeasterly direction until encountering an abandoned rail corridor. It then follows the rail corridor terminating at the LA 21/LA 41

intersection near Bush, Louisiana. The EIS considered the social, environmental, and economic impacts of the project. The No-Action alternative and four roadway alternatives were evaluated and discussed in the draft and final EIS. The FHWA will prepare a noise study in accordance with 23 CFR part 772 and coordinate the Section 4(f) evaluation for the project in accordance with 40 CFR 1505.2. The public will be given an opportunity to comment on the proposed action prior to issuance of a ROD by FHWA. The public notice will be published in local newspapers and on the project Web site at www.i12tobush.com.

Comments or questions concerning this proposed action and the EIS should be directed to the FHWA at the address provided above.
