

may be used to conduct monkfish research activities during the current fishing year. In September 2012, NMFS published a notice announcing the 2013 Monkfish RSA Program, and solicited proposals for monkfish research activities to be conducted under the RSA program. Four proposals were received, and two were granted awards totaling 426 RSA DAS. As a result, there are 74 DAS that were not awarded and are now available as exempted DAS. Therefore, pursuant to the regulations governing the monkfish fishery at 50 CFR 648.92(c)(1)(v), NMFS is reallocating the unused 2013 RSA DAS as exempted DAS that may be used to conduct monkfish research during the remainder of fishing year 2013 (through April 30, 2014). Requests for exempted DAS must be submitted to NMFS along with a complete application for an exempted fishing permit. The exempted DAS differ from RSA DAS in that research must occur in conjunction with the exempted DAS. The exempted DAS cannot be used solely to generate funds. A summary of the requirements for submitting an exempted fishing permit are available online at: www.nero.noaa.gov/permits/forms/EFPLOAEAAPOssessionLOAGuidance.pdf.

Classification

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866. Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and opportunity for public comment on this action, as notice and comment would be unnecessary and contrary to the public interest because the action is administrative in nature, and because it provides the public (*i.e.*, researchers) the opportunity to reduce costs associated with conducting monkfish related research activities. Additionally, there is good cause under 5 U.S.C. 553(d)(3) to waive the 30-day delay in effective date because the action is administrative in nature.
