**Abstract:** The Office of Population Affairs within the Office of the Assistant Secretary for Health seeks to collect data from the Title X service delivery grantees on efforts related to outreach and enrollment to assist individuals in obtaining health insurance available as a result of the Affordable Care Act (ACA). Grantees will be asked to collect and report information on the numbers of individuals who are; (1) Assisted by a trained health center worker; (2) number of individuals who receive an eligibility determination for the marketplace, Medicaid or CHIP with the assistance of a trained worker; and (3) number of individuals who enroll in an insurance program with the assistance of a trained worker. The information will be reported for all sites in their grantee network.

### *Need and Proposed Use of the Information:*

The Title X Family Planning Program ("Title X program" or "program") is the only Federal grant program dedicated solely to providing individuals with comprehensive family planning and related preventive health services (e.g., screening for breast and cervical cancer, sexually transmitted diseases (STDs), and human immunodeficiency virus [HIV]). By law, priority is given to persons from low-income families (Section 1006(c) of Title X of the Public Health Service Act, 42 USC 300). The Office of Population Affairs (OPA) within the Office of the Assistant Secretary for Health administers the Title X program.

In fiscal year 2013, Congress appropriated approximately \$296.8 million for Title X family planning activities. In accordance with the statute and regulations (42 Code of Federal Regulations [CFR] Part 59), at least 90% of the appropriation is used for clinical family planning services. In 2012, 98 Title X grantees provided family planning services to five million women and men through a network of 4,400 community-based clinics that include state and local health departments, tribal organizations, and other public and private nonprofit agencies. There is at least one clinic that receives Title X funds and provides services as required under the Title X statute in 73% of U.S. counties.

Sixty percent of the clients seen at Title X funded service sites self-identify as being uninsured. Seventy percent of the total clients are under the age 30.
