

plan. Just as with round lot transactions, an odd-lot transaction with a dollar value of \$5000 or more would constitute one qualified transaction report and an odd-lot transaction with a dollar value of less than \$5000 would constitute a fraction of a qualified transaction report that equals the dollar value of the transaction report divided by \$5000. The Participants do not anticipate that this would produce a significant shift in revenue allocation among the Participants. According to the Participants, this treatment of odd-lot transactions for revenue allocation purposes does not require a change to the language of the CTA Plan.

III. Discussion and Commission's Findings

After careful review, the Commission finds that the Amendment to the CTA Plan is consistent with the requirements of the Act and the rules and regulations thereunder,⁸ and, in particular, Section 11A(a)(1)(C)(iii) of the Act⁹ and Rule 608 thereunder¹⁰ in that it is in the public interest and appropriate for the protection of investors and the maintenance of fair and orderly markets to assure the availability to brokers, dealers, and investors of information with respect to transactions in securities. As the Participants stated in the proposal, odd-lot transactions comprise a noteworthy percentage of total trading volume. Thus, including odd-lot transactions on the consolidated tape will enhance post-trade transparency, as well as price discovery, and consequently would further the goals of the Act. The Commission believes that information about odd-lot transactions would provide important information to investors and other market participants and therefore represents a positive development in the provision of market data.

IV. Conclusion

It is therefore ordered, pursuant to Section 11A of the Act,¹¹ and the rules thereunder, that the proposed amendment to the CTA Plan (SR-CTA-2013-05), be, and hereby is approved.

⁸ In approving the Amendment, the Commission has considered the proposed Amendment's impact on efficiency, competition, and capital formation. 15 U.S.C. 78c(f).

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-70789; File No. SR-CFE-2013-006]

Self-Regulatory Organizations; CBOE Futures Exchange, LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Relating to the Notification Provisions for Exchange of Contract for Related Position Transactions and Block Trades

October 31, 2013.

Pursuant to Section 19(b)(7) of the Securities Exchange Act of 1934 ("Act"),¹ notice is hereby given that on October 17, 2013, CBOE Futures Exchange, LLC ("CFE" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change described in Items I, II, and III below, which Items have been prepared by CFE. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons. CFE also has filed this proposed rule change with the Commodity Futures Trading Commission ("CFTC"). CFE filed a written certification with the CFTC under Section 5c(c) of the Commodity Exchange Act ("CEA")² on October 17, 2013.

I. Self-Regulatory Organization's Description of the Proposed Rule Change

CFE proposes to revise the notification provisions contained in CFE Rules 414 (Exchange of Contract for Related Position) ("ECRP") and 415 (Block Trading).

The scope of this filing is limited solely to the application of the rule changes to security futures traded on CFE. The only security futures currently traded on CFE are traded under Chapter 16 of CFE's Rulebook which is applicable to Individual Stock Based and Exchange-Traded Fund Based Volatility Index ("Volatility Index") security futures.

The text of the proposed rule change is attached as *Exhibit 4* to the filing

submitted by the Exchange but is not attached to the published notice of the filing.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, CFE included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. CFE has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

CFE recently amended the notification and reporting provisions contained in CFE Rule 414 (which sets forth requirements relating to ECRP transactions) and CFE Rule 415 (which sets forth requirements relating to Block Trades).³ One provision of the recent amendment was to extend the time frames during which ECRP transactions and Block Trades may be reported. As described in SR-CFE-2013-005, the impetus for that filing was the first phase of implementation of the expansion of extended trading hours for CBOE Volatility Index ("VIX") futures.⁴ The current proposal seeks to amend the notification provisions of CFE Rules 414 and 415 in connection with implementation of the second phase of the extension of extended trading hours for VIX futures.

The CFE Help Desk will now be staffed to support VIX futures trading that commences at 2:00 a.m. (instead of 7:00 a.m.) on calendar days Monday through Friday. As a result, the Exchange is proposing to amend the notification provisions for ECRP transactions and Block trades that were

³ See Securities Exchange Act Release No. 70611 (October 4, 2013) [sic] (Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Relating to the Notification and Reporting Provisions for Exchange of Contract for Related Position Transactions and Block Trades) (SR-CFE-2013-005).

⁴ All times included in this filing and in CFE's Rules are Chicago time. The first phase of expanded extended trading hours introduces an additional 45-minute extended trading hours period from 3:30 p.m.-4:15 p.m. Monday through Thursday for VIX futures. The second phase will change the time that trading starts on a calendar day from 7:00 a.m. to 2:00 a.m. for Business Days Monday through Friday for VIX futures.

previously based on a 7:00 a.m. start to a calendar day to be based on a 2:00 a.m. start to a calendar day. Accordingly, the Exchange is proposing to change all references to “7:00 a.m.” to “2:00 a.m.” in the charts that are set forth in CFE Rules 414(i) and 415(g). No other changes are being proposed by this rule change.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,⁵ in general, and furthers the objectives of Section 6(b)(5)⁶ in particular in that it is designed to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and in general, to protect investors and the public interest.

The Exchange believes that the proposed rule change would benefit investors and market participants because it would enhance CFE’s ECRP and Block Trade reporting provisions by extending the time frames during which ECRP transactions and Block Trades may be reported. The Exchange also believes that the proposed rule change is equitable and not unfairly discriminatory because amended CFE Rules 414 and 415 would apply to all TPHs and Authorized Reporters and do not discriminate between market participants.

B. Self-Regulatory Organization’s Statement on Burden on Competition

CFE does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act, in that the rule change makes enhancements to CFE’s Block Trade and ECRP reporting process. In addition, the Exchange believes that the expansion of the ability to report Block Trades and ECRP transactions in security futures in conjunction with the expansion of trading hours in VIX futures will promote competition because it will provide for the reporting and dissemination of security futures Block Trades and ECRPs during additional time frames which will serve to promote additional transparency and thus potential further price competition.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The proposed rule change will become operative on or after November 1, 2013.

At any time within 60 days of the date of effectiveness of the proposed rule change, the Commission, after consultation with the CFTC, may summarily abrogate the proposed rule change and require that the proposed rule change be refiled in accordance with the provisions of Section 19(b)(1) of the Act.⁷
