AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of funds availability, solicitation of applications.

SUMMARY: The Railroad Safety Technology Grant Program was first authorized under the Rail Safety Improvement Act of 2008 (RSIA). The program authorizes DOT to provide grants to passenger and freight rail carriers, railroad suppliers, and State and local governments for projects that have a public benefit of improved railroad safety and efficiency. The program originally made available \$50 million in Federal funds. Due to the original grantees completing their grants, \$550,000 became available from the original \$50 million. This grant program has a maximum 80-percent Federal and minimum 20-percent grantee cost share (cash or in-kind) match requirement.

DATES: FRA will accept grant applications until February 5, 2014. Reviews will be conducted immediately following the solicitation close date. Selection announcements will be made 90 days after the solicitation closes.

ADDRESSES: Applications for grants under this program must be submitted electronically to Grants.gov (<http://www.grants.gov>) and must follow the detailed procedures in the grant application package online. The Grants.gov Web site allows organizations to find and electronically apply for competitive grant opportunities from all Federal grantmaking agencies. Any entity wishing to submit an application pursuant to this notice should immediately initiate the process of registering with *Grants.Gov*. Only grants submitted electronically through *Grants.gov* will be considered.

FOR FURTHER INFORMATION CONTACT: Dr. Mark Hartong, Scientific and Technical Advisor, FRA, at (202) 493-1332 or Mark.Hartong@dot.gov, or Mr. David Blackmore, Program Manager-Advanced Technologies, FRA, at (312) 835-3903 or David.Blackmore@dot.gov, to discuss the prospective idea, its potential responsiveness to the solicitation, and potential for FRA interest.
