

applicants will continue to be restricted to intrastate driving. With the exemption, applicants can drive in interstate commerce. Thus, the Agency's analysis focuses on whether an equal or greater level of safety is likely to be achieved by permitting each of these drivers to drive in interstate commerce as opposed to restricting the driver to driving in intrastate commerce.

Conclusion

The Agency is granting exemptions from the epilepsy standard, 49 CFR 391.41(b)(8), to nine individuals based on a thorough evaluation of each driver's qualifications, safety experience, and medical condition. Safety analysis of information relating to these nine applicants meets the burden of showing that granting the exemptions would achieve a level of safety that is equivalent to or greater than the level that would be achieved without the exemption. By granting the exemptions, the interstate CMV industry will gain nine highly trained and experienced drivers. In accordance with 49 U.S.C. 31315(b)(1), each exemption will be valid for 2 years, with annual recertification required unless revoked earlier by FMCSA. The exemption will be revoked if the following occurs: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained prior to being granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136 and 31315.

FMCSA exempts the following nine drivers for a period of 2 years with annual medical certification required: Selene Anderson (TN); Christopher Bird (OH); Fletcher Dortch (MD); Victor Marquez (ID); Edward Nissenbaum (PA); Stanislav Spielvogel (CT); Stephen Stawinsky (PA); Lyle Trimm (NJ); and George Webb (MA) from the prohibition of CMV operations by persons with a clinical diagnosis of epilepsy or seizures. If the exemption is still in effect at the end of the 2-year period, the person may apply to FMCSA for a renewal under procedures in effect at that time.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may renew an exemption from the vision requirements in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce, for a two-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption." The procedures for requesting an exemption (including renewals) are set out in 49 CFR part 381.

Exemption Decision

This notice addresses 23 individuals who have requested renewal of their exemptions in accordance with FMCSA procedures. FMCSA has evaluated these 23 applications for renewal on their

merits and decided to extend each exemption for a renewable two-year period. They are:

Anthony Brandano (MA)
 Stanley E. Elliott (UT)
 Elmer E. Gockley (PA)
 Danny R. Gray (OK)
 Glenn T. Hehner (KY)
 Vladimir M. Kats (NC)
 Alfred Keehn (AZ)
 Martin D. Keough (NY)
 Randall B. Laminack (TX)
 Robert W. Lantis (MT)
 James A. Lenhart (WV)
 Jerry J. Lord (PA)
 Raymond P. Madron (MD)
 Ronald S. Mallory (OK)
 Eldon Miles (IN)
 Norman V. Myers (WA)
 Jack E. Potts, Jr. (PA)
 Neal A. Richard (LA)
 Benny R. Toothman (PA)
 Rene R. Trachsel (OR)
 Stanley W. Tyler, Jr. (NC)
 Kendle F. Waggle, Jr. (IN)
 DeWayne Washington (NC)

The exemptions are extended subject to the following conditions: (1) That each individual has a physical examination every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the requirements in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provides a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retains a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for two years unless rescinded earlier by FMCSA. The exemption will be rescinded if: (1) the person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315.

Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application for additional two year periods. In accordance with 49 U.S.C. 31136(e) and

31315, each of the 23 applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (64 FR 27027; 64 FR 51568; 66 FR 53826; 66 FR 63289; 66 FR 66966; 67 FR 10471; 67 FR 19798; 68 FR 64944; 68 FR 69434; 69 FR 19611; 70 FR 48797; 70 FR 53412; 70 FR 57353; 70 FR 61493; 70 FR 67776; 70 FR 72689; 70 FR 74102; 72 FR 39879; 72 FR 52422; 72 FR 62897; 74 FR 37295; 74 FR 43217; 74 FR 48343; 74 FR 49069; 74 FR 57551; 74 FR 60021; 76 FR 75942). Each of these 23 applicants has requested renewal of the exemption and has submitted evidence showing that the vision in the better eye continues to meet the requirement specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past two years indicates each applicant continues to meet the vision exemption requirements. These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

Request for Comments

FMCSA will review comments received at any time concerning a particular driver's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31136(e) and 31315. However, FMCSA requests that interested parties with specific data concerning the safety records of these drivers submit comments by December 12, 2013.

FMCSA believes that the requirements for a renewal of an exemption under 49 U.S.C. 31136(e) and 31315 can be satisfied by initially granting the renewal and then requesting and evaluating, if needed, subsequent comments submitted by interested parties. As indicated above, the Agency previously published notices of final disposition announcing its decision to exempt these 23 individuals from the vision requirement in 49 CFR 391.41(b)(10). The final decision to grant an exemption to each of these individuals was made on the merits of each case and made only after careful consideration of the comments received to its notices of applications. The notices of applications stated in detail the qualifications, experience, and medical condition of each applicant for an exemption from the vision

requirements. That information is available by consulting the above cited **Federal Register** publications.

Interested parties or organizations possessing information that would otherwise show that any, or all, of these drivers are not currently achieving the statutory level of safety should immediately notify FMCSA. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315, FMCSA will take immediate steps to revoke the exemption of a driver.

ACTION: Notice of applications for exemptions; request for comments.

SUMMARY: FMCSA announces receipt of applications from 43 individuals for exemption from the vision requirement in the Federal Motor Carrier Safety Regulations. They are unable to meet the vision requirement in one eye for various reasons. SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the Federal Motor Carrier Safety Regulations for a 2-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.” FMCSA can renew exemptions at the end of each 2-year period. The 43 individuals listed in this notice have each requested such an exemption from the vision requirement in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce. Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting an

exemption will achieve the required level of safety mandated by statute.

Qualifications of Applicants

Dennis S. Anderson

Mr. Anderson, age 45, has had refractive amblyopia in his left eye since childhood. The visual acuity in his right eye is 20/20, and in his left eye, 20/250. Following an examination in 2013, his optometrist noted, “Mr. Anderson has adapted to his condition and should be able to continue to safely operate a commercial motor vehicle.” Mr. Anderson reported that he has driven straight trucks for 14 years, accumulating 254,800 miles, and tractor-trailer combinations for 14 years, accumulating 238,000 miles. He holds a Class A Commercial Driver’s License (CDL) from Minnesota. His driving record for the last 3 years shows no crashes and no convictions for moving violations in a CMV.

Calvin J. Barbour

Mr. Barbour, 49, has had a central retinal vein occlusion in his left eye since 2005. The visual acuity in his right eye is 20/20, and in his left eye, 20/400. Following an examination in 2013, his ophthalmologist noted, “In my opinion has sufficient visual function to drive a commercial vehicle.” Mr. Barbour reported that he has driven tractor-trailer combinations for 17 years, accumulating 1.4 million miles. He holds a Class A CDL from New York. His driving record for the last 3 years shows one crash, for which he was not cited, and no convictions for moving violations in a CMV.

Martin D. Bellcour

Mr. Bellcour, 51, has had a retinal detachment in his right eye since 1999. The visual acuity in his right eye is 20/60, and in his left eye, 20/20. Following an examination in 2013, his optometrist noted, “In my opinion Mr. Bellcour has a stable field defect in the right eye which has existed since 1999...The patient should not have a problem operating a commercial vehicle with outside mirrors” Mr. Bellcour reported that he has driven straight trucks for 13 years, accumulating 7,800 miles. He holds a Class BCD CDL from Wisconsin. His driving record for the last 3 years shows no crashes and no convictions for moving violations in a CMV.
