

Discounting is to be used to convert future monetary values to present values.

**DATES:** This discount rate is to be used for the period October 1, 2013, through and including September 30, 2014.

**FOR FURTHER INFORMATION CONTACT:** Michelle Kelly, Water and Environmental Resources Division, Denver, Colorado 80225; telephone: 303-445-2888.

**SUPPLEMENTARY INFORMATION:** Notice is hereby given that the interest rate to be used by Federal agencies in the formulation and evaluation of plans for water and related land resources is 3.50 percent for fiscal year 2014.

This rate has been computed in accordance with Section 80(a), Public Law 93-251 (88 Stat. 34) and 18 CFR 704.39, which: (1) Specify that the rate will be based upon the average yield during the preceding fiscal year on interest-bearing marketable securities of the United States which, at the time the computation is made, have terms of 15 years or more remaining to maturity (average yield is rounded to nearest one-eighth percent); and (2) provide that the rate will not be raised or lowered more than one-quarter of 1 percent for any year. The U.S. Department of the Treasury calculated the specified average to be 2.9424 percent. This rate, rounded to the nearest one-eighth percent, is 3.00 percent, which is a change of more than the one-quarter of 1 percent allowed. Therefore, based on the fiscal year 2013 rate of 3.75 percent, the fiscal year 2014 rate is 3.50 percent.

The rate of 3.50 percent will be used by all Federal agencies in the formulation and evaluation of water and related land resources plans for the purpose of discounting future benefits and computing costs or otherwise converting benefits and costs to a common-time basis.
