

III. Regulatory Flexibility Act

NASA certifies that this proposed rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the proposed rule does not impose any additional requirements on small entities and, more importantly, the proposed rule serves to deregulate internal agency operating procedures which will eliminate unnecessary regulation.

IV. Paperwork Reduction Act

The Paper Reduction Act (Pub. L. 104-13) is not applicable because the removal of the delegation of administration procedures does not require the submission of any information by recipients that requires the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.
