

State law, and Indian Tribes. Only grant funds have been appropriated to date.

- **Denali Commission Grants and Loans.** RUS may provide grants and loans to the Denali Commission, a Federal agency, for energy generation, transmission, and distribution facilities serving extremely high energy cost rural and remote communities in Alaska. Annual Denali grants are awarded and advanced as soon as funds are available to RUS. The Denali Grants are governed by a Memorandum of Understanding between the two agencies and by individual Grant Agreements. Only grant funds have been appropriated to date for the Denali Commission.

- **Bulk Fuel Revolving Fund Grants.** RUS may provide grants to State entities in existence as of November 9, 2000, to support revolving loan funds to improve the efficiency of fuel purchases for communities where the fuel cannot be delivered by surface transportation. Only Alaska and a handful of other States are eligible.

Golden Valley Electric Association: Healy Power Plant Unit #2 Restart

AGENCY: Rural Utilities Service, USDA.

ACTION: Notice of availability of a Record of Decision.

SUMMARY: The Rural Utilities Service (RUS) has issued a Record of Decision

(ROD) for the Supplemental Final Environmental Impact Statement (SFEIS) related to RUS's consideration of potential agency actions that would facilitate a proposal from Golden Valley Electric Association, Inc. (GVEA) for the restart and commercial operation of Healy Unit #2, a power generation facility at the Healy Power Plant (Healy Plant) in Healy, Alaska. The SFEIS was prepared in accordance with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 *et seq.*), the Council on Environmental Quality's (CEQ's) regulations implementing NEPA (40 CFR parts 1500-1508), and RUS's Environmental Policies and Procedures (7 CFR part 1794). The SFEIS updated a Final Environmental Impact Statement (FEIS) prepared by the Department of Energy (DOE) in 1993.

ADDRESSES: To obtain copies of the ROD or for further information, contact: Deirdre M. Remley, Environmental Protection Specialist, RUS, Water and Environmental Programs, Engineering and Environmental Staff, 1400 Independence Avenue SW., Stop 1571, Washington, DC 20250-1571, Telephone: (202) 720-9640 or email: deirdre.remley@wdc.usda.gov. The ROD is also available at RUS's Web site at <http://www.rurdev.usda.gov/UWP-HealyPowerPlan.html> or you may contact Ms. Remley for a hard copy.

SUPPLEMENTARY INFORMATION: Healy Unit #2 is currently owned by the Alaska Industrial and Export Authority (AIDEA), but is located on GVEA land. Unit #2 was built to work in conjunction with Healy Unit #1, a generation unit that has been owned and operated by GVEA since 1967. Unit #2 is currently in warm layup and has not generated power since 2000. GVEA proposes to purchase Unit #2, prepare it for commercial production, and operate the unit for the remainder of its operational life. GVEA is seeking administrative actions and financing from RUS to facilitate the restart of Unit #2 and for improvements to the Healy Plant, which include installing additional emissions control to both Unit #1 and Unit #2. Unit #1 is a 25 MW coal-fired boiler and Unit #2 is a 50 MW coal-fired boiler that was constructed in the late 1990s with funding from DOE and AIDEA.

The decision documented in RUS's ROD is that RUS agrees to consider, subject to additional engineering and financial review, administrative actions and financing that would facilitate GVEA's restart of Unit #2 at the Healy Power Plant. Details regarding RUS' regulatory authority, rationale for the decision, and compliance with

applicable regulations are included in the ROD.

RUS published an NOI in the **Federal Register** on January 3, 2013, which described the Proposed Action (78 FR 285). RUS published a notice in the **Federal Register** on June 10, 2013 announcing the availability of the SFEIS and initiating the 30-day public comment period for the SFEIS (78 FR 34639). A copy of the SFEIS was sent to the U.S. Environmental Protection Agency for review and comment. Two comments were received on the SFEIS and they are addressed in the ROD.

RUS has considered and concurred with GVEA's purpose and need for the proposal to restart Unit #2, and RUS has evaluated the potential impacts of this proposal on the human environment and finds that the SFEIS is consistent with Federal regulations and meets the standard for an adequate statement. The Proposed Action to facilitate the restart of Unit #2 of the Healy Plant is RUS's selected alternative.

Dated: November 11, 2013.

Sodium Nitrite From Germany and the People's Republic of China: Final Results of the Expedited First Sunset Reviews of the Antidumping Duty Orders

AGENCY: Enforcement and Compliance, formerly Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On July 1, 2013, the Department of Commerce (“the Department”) initiated the first sunset reviews of the antidumping duty (“AD”) orders on sodium nitrite from Germany and the People’s Republic of China (“PRC”) pursuant to section 751(c) of the Tariff Act of 1930, as amended (“the Act”). Based on the notice of intent to participate and adequate substantive response filed by the domestic interested party, and the lack of response from any respondent interested party, the Department

conducted expedited (120-day) sunset reviews of these AD orders, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2). As a result of these sunset reviews, the Department finds that revocation of the AD orders would likely lead to continuation or recurrence of dumping, at the levels indicated in the “Final Results of Sunset Reviews” section of this notice.

DATES: Effective: November 19, 2013.

FOR FURTHER INFORMATION CONTACT: Lori Apodaca or Howard Smith, AD/CVD Operations, Office 4, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-4551 or (202) 482-5193, respectively.

SUPPLEMENTARY INFORMATION:

Background

On August 27, 2008, the Department published the AD orders on sodium nitrite from Germany and the PRC.¹ On July 1, 2013, the Department published the notice of initiation of the first sunset reviews of the AD orders on sodium nitrite from Germany and the PRC, pursuant to section 751(c) of the Act.² On July 11, 2013 and July 12, 2013, pursuant to 19 CFR 351.218(d)(1), the Department received timely and complete notices of intent to participate in the sunset reviews for both orders from General Chemical LLC, a domestic producer of sodium nitrite. On July 30, 2013, pursuant to 19 CFR 351.218(d)(3), General Chemical LLC filed a timely and adequate substantive response for both orders. The Department did not receive substantive responses from any respondent interested party. As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), the Department conducted expedited (120-day) sunset reviews of the AD orders on sodium nitrite from Germany and the PRC.

As explained in the memorandum from the Assistant Secretary for Enforcement and Compliance, the Department has exercised its discretion to toll deadlines for the duration of the closure of the Federal Government from October 1, through October 16, 2013.³ Therefore, all deadlines in this segment of the proceeding have been extended
