SUPPLEMENTARY INFORMATION:

Background: On August 23, 2013, we published a notice of proposed rulemaking in the **Federal Register** (78 FR 52467), proposing to amend the regulations governing Title I, Part A of the Elementary and Secondary Education Act of 1965, as amended (ESEA) (the “Title I regulations”), to no longer authorize a State, in satisfying ESEA accountability requirements, to define modified academic achievement standards and develop alternate assessments based on those modified academic achievement standards. These proposed amendments would permit, as a transitional measure and for a limited period of time, States that administered alternate assessments based on modified academic achievement standards in the 2012–13 school year to continue to administer alternate assessments based on modified academic achievement standards and include the results in adequate yearly progress (AYP) calculations, subject to limitations on the number of proficient scores that may be counted for AYP purposes. The notice of proposed rulemaking established an October 7, 2013, deadline for the submission of written comments. Though the Federal eRulemaking Portal was in operation during the recent government shutdown, which included the final seven days of the original public comment period, we recognize that interested parties reasonably may have believed that the government shutdown resulted in a shutdown of the public comment period. To ensure that all interested parties are provided the opportunity to submit comments, we are reopening the public comment period for seven days.

Approval and Promulgation of Air Quality Implementation Plans; Ohio; Ohio SO₂ Air Quality Rule Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: On June 24, 2011, Ohio Environmental Protection Agency submitted for Clean Air Act State Implementation Plan (SIP) approval, revisions to Ohio Administrative Code (OAC) rules: 3745-18-01, 3745-18-03 to 3745-18-52, 3745-18-54 to 3745-18-77, 3745-18-79, 3745-18-81 to 3745-18-89, and 3745-18-91 to 3745-18-94. The rule revisions primarily update facility information and remove SO₂ requirements for shutdown facilities throughout the SIP. EPA believes that the revisions improve the clarity of the rule without affecting the stringency and therefore is proposing to approve all of the submitted revisions except for specific paragraphs in OAC 3745-18-04.

SUPPLEMENTARY INFORMATION: In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. For additional information, see the direct final rule which is located in the Rules section of this **Federal Register**.

Greenhouse Gas Reporting Program: Amendments and Confidentiality Determinations for Fluorinated Gas Production

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is proposing to amend certain provisions of the Fluorinated Gas Production source category of the Greenhouse Gas Reporting Rule. We are also proposing confidentiality determinations for the new and substantially revised reporting requirements of the Fluorinated Gas Production source category.
