### Department of the Army

#### Draft Environmental Impact Statement for the Modernization and Repair of Piers 2 and 3, Military Ocean Terminal Concord, CA

**AGENCY:** Department of the Army, DoD.

**ACTION:** Notice of Availability.

**SUMMARY:** The Department of the Army announces the availability of the Draft Environmental Impact Statement (DEIS) for the Modernization and Repair of Piers 2 and 3 at Military Ocean Terminal Concord (MOTCO). The DEIS evaluates the potential environmental and socioeconomic effects that could result from the partial demolition of existing Pier 2 and reconstruction of

structural elements; replacement of pier-side infrastructure and supporting facilities at Pier 2; upgrades to shore-side roads and electrical infrastructure in the immediate vicinity of Piers 2 and 3; removal and replacement/repair of piles and selected structural elements at Pier 3; and maintenance dredging to - 32 feet mean lower low water plus 2 feet overdepth dredging at select areas around Pier 2 (up to 3,800 cubic yards). Environmental consequences were evaluated for noise; air quality; geology, topography, and soils; water resources; biological resources; land use and coastal zone management; transportation; infrastructure; visual resources; recreational resources; socioeconomic; environmental justice and protection of children; cultural resources; and hazardous materials, hazardous waste, toxic substances, and contaminated sites. Based on the analysis described in the DEIS, all impacts are anticipated to be less than significant.

The DEIS evaluates the potential environmental and socioeconomic effects of three action alternatives and the No Action Alternative. Alternative 1 fully implements repairs to Piers 2 and 3 with Pier 2 re-oriented to align the west end with the existing shipping channel to create a more modernized configuration. Alternative 2 would use the same structural system as Alternative 1 and fully implement repairs to Piers 2 and 3; however, the Pier 2 footprint would remain in its present location. Alternative 3 would fully implement repairs to Piers 2 and 3, reorienting Pier 2 to create a more modernized configuration but with a larger deck surface and heavier load-carrying capacity than that proposed under Alternative 1. Under the No Action Alternative, the modernization and repair of Pier 2 and the repair of Pier 3 at MOTCO would not occur, and Pier 3 would continue to be used with loading restrictions for the remainder of its service life (estimated to be 2019).

**DATES:** The public comment period will end 45 days after publication of the Notice of Availability in the **Federal Register** by the U.S. Environmental Protection Agency.

**ADDRESSES:** Please submit written comments to Mr. Malcolm Charles, Director of Public Works, Attention: SDAT-CCA-MI (Charles), 410 Norman Avenue, Concord, CA 94520; email comments to [usarmy.motco.sddc.mbx.list-eis@mail.mil](mailto:usarmy.motco.sddc.mbx.list-eis@mail.mil); or fax comments to (925) 246-4171 (Attention: SDAT-CCA-MI [Charles]).

**FOR FURTHER INFORMATION CONTACT:** Mr. Mitch Chandran, Public Affairs Office, Surface Deployment and Distribution Command; telephone: (618) 220-5704 or (618) 220-6284; email: [mitchell.b.chandran.civ@mail.mil](mailto:mitchell.b.chandran.civ@mail.mil).

**SUPPLEMENTARY INFORMATION:** The purpose of the proposed action is to modernize and repair Pier 2 and repair Pier 3 so the Army can maintain its ability to meet documented Department of Defense (DoD) mission requirements in support of wartime and contingency operations. Piers 2 and 3 were built in the mid-1940s. Both piers are past their structural and design life and lack modern operational efficiencies. Pier 2, the optimum operational pier for mission capability, cannot be used due to its currently degraded and nonoperational condition. Pier 3, currently the primary operational pier at MOTCO, requires repair to maintain limited operational capability through 2019. The proposed action is therefore needed to modernize and repair pier infrastructure at MOTCO to ensure this vital West Coast port can continue to meet its designated mission. Without these actions, the DoD's ability to perform its current and future contingency operations in the Pacific theater would be impacted.

The DEIS was prepared in accordance with the National Environmental Policy Act (NEPA) (42 United States Code 4321 *et seq.*); the Council on Environmental Quality regulations implementing NEPA (40 Code of Federal Regulations [CFR] Parts 1500-1508), and the Army's regulations implementing NEPA (32 CFR Part 651 as published in **Federal Register**, Volume 67, Pages 15290-15332). The purpose of the DEIS is to inform the decision maker; federally recognized Native American tribes, federal, state, and local agencies and officials; and interested groups and individuals of possible environmental and socioeconomic consequences associated with the proposed action.

Based on a thorough review of the alternatives, the Army at this point has determined Alternative 1 to be its Preferred Alternative. Alternative 1 accomplishes all of the basic requirements for modernizing Pier 2 and re-orient the pier to provide more efficient access for the types of vessels that use the pier.

The Army has entered into consultation concerning the proposed action as required by Section 106 of the National Historic Preservation Act and its implementing regulations (36 CFR Part 800) regarding the Army's determination that the proposed action would have no adverse effect on
