**Authority:** 44 U.S.C. 3507(a)(1)(D).

**SUPPLEMENTARY INFORMATION:** Employee Retirement Income Security Act of 1974 (ERISA) section 101(f) sets forth the requirements for plan administrators of most single-employer defined benefit (DB) plans to furnish annual funding notices to the Pension Benefit Guarantee Corporation, plan participants and beneficiaries, and each labor organization representing such participants or beneficiaries. The Moving Ahead for Progress in the 21st Century Act (MAP–21) has amended the ERISA, by adding a requirement for a single-employer DB plan administrator to disclose additional information in the annual funding notice for a plan year beginning after December 31, 2011, and before January 1, 2015, regarding the effect of MAP–21 segment rate stabilization rules on plan liabilities and the plan sponsor's minimum required contributions to the plan. The MAP–21 sets a floor (or ceiling) for the interest rates that a single employer DB plan administrator generally is required to use for calculating contributions. The required interest rates are generally limited to rates that are within a specified range, or corridor, above or below a 25-year average for the rates. The MAP–21 also required the DOL to modify the model annual funding notice required under Pension Protection Act of 2006 section 501(c) to include, prominently, the supplemental information required under new ERISA section 101(f)(2)(D).

On March 8, 2013, the DOL released EBSA Field Assistance Bulletin (FAB) 2013–01 concerning the new disclosure requirements mandated by MAP–21 provisions. The FAB addresses a need for interim guidance pending the adoption of regulations or other guidance under ERISA section 101(f), as amended by the MAP–21. The FAB sets forth technical questions and answers and provides a model supplement that plan administrators may use to discharge their MAP–21 disclosure

obligations and provides that, pending further guidance and as a matter of enforcement policy, the DOL will treat a single employer DB plan administrator as satisfying MAP–21 requirements if the plan administrator complies with the guidance in the memorandum and otherwise acts in accordance with a good faith and reasonable interpretation of those requirements.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1210–0126.

The current approval for this collection is scheduled to expire on December 31, 2013. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on August 15, 2013 (78 FR 49771).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within 30 days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1210–0126. The OMB is particularly interested in comments that:
