[NRC-2013-0254]

### Conceptual Example of a Proposed Risk Management Regulatory Framework Policy Statement

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Conceptual example of a proposed policy statement; request for comment.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is issuing a document entitled: "White Paper on a Conceptual Example of a Proposed Risk Management Regulatory Framework Policy Statement" (ADAMS Accession No. ML13273A517) and requesting public comment. The conceptual statement would set forth a possible Commission policy regarding the use of a structured decision-making model that results in risk-informed and performance-based defense-in-depth protections to: Ensure appropriate personnel, barriers, and controls to prevent, contain, and mitigate possible inadvertent exposure to radioactive material according to the hazard present, the relevant scenarios, and the associated uncertainties; and ensure that the risks resulting from the failure of some or all of the established barriers and controls, including human errors, are maintained acceptably low. The white paper is an illustration of the staff's work in progress and is expected to be modified as both internal and external review is solicited and considered.

**DATES:** Please submit comments by January 10, 2014. Comments received after this date will be considered if it is practical to do so, but the NRC staff is able to ensure consideration only for comments received on or before this date.
