ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R05-OAR-2013-0501; FRL-9902-26-Region 5]

Approval and Promulgation of Air Quality Implementation Plans; Illinois

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct Final rule.

SUMMARY: EPA is approving a request submitted by the Illinois Environmental Protection Agency (Illinois EPA) on July 3, 2013, to revise the Illinois state implementation plan (SIP). The submission amends the Illinois Administrative Code (IAC) by updating the definition of “Volatile organic material (VOM) or Volatile organic compound (VOC)” to add trans-1,3,3,3-tetra-fluoropropene (HFO-1234ze) to the list of compounds excluded from the definition of VOM or VOC. This revision is based on EPA’s 2012 rulemaking which added HFO-1234ze to the list of chemical compounds that are excluded from the Federal definition of VOC because of their negligible contribution to the formation of tropospheric ozone.

DATES: This rule is effective January 27, 2014, unless EPA receives adverse comments by December 26, 2013. If adverse comments are received, EPA will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.

SUPPLEMENTARY INFORMATION:

Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA. This supplementary information section is arranged as follows:

- I. What is the background for this action?
 - A. When did the State submit the SIP revision to EPA?
 - B. Did Illinois hold public hearings on this SIP revision?
- II. What is EPA approving?
- III. What is EPA’s analysis of the SIP revision?
- IV. What action is EPA taking today?
- V. Statutory and Executive Order Reviews.

I. What is the background for this action?

A. When did the State submit the SIP revision to EPA?

The Illinois EPA submitted a revision to the Illinois SIP to EPA for approval on July 3, 2013. The SIP revision updates the definition of VOM or VOC at 35 IAC Part 211, Subpart B, Section 211.7150(a).

B. Did Illinois hold public hearings on this SIP revision?

The Illinois Pollution Control Board (Board) held a public hearing on the proposed SIP revision on December 20, 2012. The Board received no public comments.

II. What is EPA approving?

EPA is approving an Illinois SIP revision that updates the definition of VOM or VOC at 35 IAC Part 211 to add HFO-1234ze to the list of excluded compounds at 35 IAC 211.7150(a). Illinois EPA took this action based on EPA’s 2012 rulemaking in which EPA

determined that this compound has negligible photochemical reactivity in the formation of tropospheric ozone, and thus, should be excluded from the definition of VOC codified at 40 CFR 51.100(s). (See 77 FR 37614, June 22, 2012.)

III. What is EPA's analysis of the SIP revision?

In 2009, EPA received a petition asking EPA to exempt HFO-1234ze from the definition of VOC. Based on the level of reactivity of this chemical compound, EPA concluded that this compound makes a negligible contribution to tropospheric ozone formation (77 FR 37610, June 22, 2012). Therefore, on June 22, 2012, EPA amended 40 CFR 51.100(s)(1) to exclude HFO-1234ze from the definition of VOC for purposes of preparing SIPs to attain the national ambient air quality standard for ozone under title I of the Clean Air Act (77 FR 37610). EPA's action became effective on July 23, 2012. Illinois EPA's SIP revision is consistent with EPA's action amending the definition of VOC at 40 CFR 51.100(s).

IV. What action is EPA taking today?

EPA is approving a revision to the Illinois SIP which is consistent with EPA's 2012 action revising the definition of VOC. The Illinois SIP revision adds HFO-1234ze to the list of chemical compounds considered exempt from the definition of VOC at 35 IAC 211.7150(a).

We are publishing this action without prior proposal because we view this as a noncontroversial amendment and anticipate no adverse comments. However, in the proposed rules section of this **Federal Register** publication, we are publishing a separate document that will serve as the proposal to approve the state plan if relevant adverse written comments are filed. This rule will be effective January 27, 2014 without further notice unless we receive relevant adverse written comments by December 26, 2013. If we receive such comments, we will withdraw this action before the effective date by publishing a subsequent document that will withdraw the final action. All public comments received will then be addressed in a subsequent final rule based on the proposed action. The EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule,

EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. If we do not receive any comments, this action will be effective January 27, 2014.

V. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Clean Air Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
 - Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
 - Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
 - Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
 - Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
 - Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
 - Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
 - Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
 - Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).
- In addition, this rule does not have tribal implications as specified by

Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by January 27, 2014. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. Parties with objections to this direct final rule are encouraged to file a comment in response to the parallel notice of proposed rulemaking for this action published in the proposed rules section of today's **Federal Register**, rather than file an immediate petition for judicial review of this direct final rule, so that EPA can withdraw this direct final rule and address the comment in the proposed rulemaking. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)
