40 CFR Part 300

[EPA-HQ-SFUND-2003-0010; FRL-9903-47-Region-7]

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List: Partial Deletion of the Omaha Lead Superfund Site

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) Region 7 announces the deletion of 1,154 residential parcel(s) identified June 4, 2013 **Federal Register** (FR) Notice of Intent to Partially Delete (NOIPD) of the Omaha Lead Superfund Site (Site) located in Omaha, Nebraska from the National Priorities List (NPL). The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). This partial deletion pertains to the soil of 1,154 residential parcels identified in the June 4, 2013 FR NOIPD. The remaining residential parcels with soil lead levels at or above 400 parts per million (ppm) will remain on the NPL and are not being considered for deletion as part of this action. The EPA and the State of Nebraska, through the Nebraska Department of Environmental Quality, have determined that all appropriate response actions under CERCLA have been completed. However, the deletion of these parcels does not preclude future actions under Superfund.

DATES: This action is effective December 6, 2013.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA-HQ-SFUND-2003-0010. All documents in the docket are listed on the <http://www.regulations.gov> Web site. Although listed in the index, some information is not publicly available, i.e., Confidential Business Information or other information whose disclosure is restricted by statute. Publicly available docket materials are available either electronically through <http://www.regulations.gov> or in hard copy at the site information repositories. Locations, contacts, phone numbers and viewing hours are:

SUPPLEMENTARY INFORMATION: The portion of the site to be deleted from the NPL is: 1,154 residential parcels located within the Final Focus Area of the Omaha Lead Site, Omaha, Nebraska. A Notice of Intent for Partial Deletion for this Site was published in the **Federal Register** on June 4, 2013. Parcel addresses are included as part of docket EPA-HQ-1990-0010, which can be

accessed through the <http://www.regulations.gov> Web site.

The closing date for comments on the Notice of Intent for Partial Deletion was July 5, 2013. No public comments were received. EPA still believes the partial deletion action is appropriate.

EPA maintains the NPL as the list of sites that appear to present a significant risk to public health, welfare, or the environment. Deletion of a site from the NPL does not preclude further remedial action. Whenever there is a significant release from a site deleted from the NPL, the deleted site may be restored to the NPL without application of the hazard ranking system. Deletion of portions of a site from the NPL does not affect responsible party liability, in the unlikely event that future conditions warrant further actions.
