

Section 9 of ASTM F1967–11a requires instructions to be supplied with the product. This practice is usual and customary with infant bath seats. These are products that generally require some installation and maintenance instructions. Any burden associated with supplying instructions with infant bath seats thus would be “usual and customary” and not within the definition of “burden” under OMB’s regulations. 5 CFR 1320.3(b)(2).

We estimate that hourly compensation for the time required to create and update labels is \$27.44, based on the assumption that sales or office employees will be modifying the labels as required (U.S. Bureau of Labor Statistics, “Employer Costs for Employee Compensation,” March 2013, Table 9, total compensation for all sales and office workers in goods-producing private industries: <http://www.bls.gov/ncs/>). Therefore, the estimated annual cost associated with the requirements is \$384 (\$27.44 per hour x 14 hours = \$384).

The estimated annual cost of the information collection requirements to the federal government is approximately \$3,527, which includes 60 CPSC staff hours to examine and evaluate the information, as needed, for monitoring and enforcement. This is based on a GS–12 level, salaried employee. The average hourly wage rate for a mid-level salaried GS–12 employee in the Washington, DC, metropolitan area (effective January 2011) is \$40.80 (GS–12, step 5). This represents 69.5 percent of total compensation (U.S. Bureau of Labor Statistics, “Employer Costs for Employee Compensation,” March 2013, Table 1, percentage of wages and salaries for all civilian management, professional, and related employees, <http://www.bls.gov/ncs/>). Adding an additional 30.5 percent for benefits brings average hourly compensation for a mid-range salaried GS–12 employee to \$58.78. Assuming that approximately 60 hours of staff time will be required annually, the total annual cost of CPSC staff time to examine and evaluate the information is estimated at \$3,527.
