Title: State Review Framework.

ICR numbers: EPA ICR No. 2185.05, OMB Control No. 2020-0031.

ICR status: This ICR is scheduled to expire on December 31, 2013. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR Part 9.

Abstract: The State Review Framework ("Framework") is an oversight tool designed to assess state performance in enforcement and compliance assurance. The Framework's goal is to evaluate state performance by examining existing data to provide a consistent level of oversight and develop a uniform mechanism by which EPA Regions, working collaboratively with their states, can ensure that state environmental agencies are consistently implementing the national compliance and enforcement program in order to meet agreed-upon goals. Furthermore, the Framework is designed to foster

dialogue on enforcement and compliance performance between the states that will enhance relationships and increase feedback, which will in turn lead to consistent program management and improved environmental results. The Framework is described in the April 26, 2005, **Federal Register** Notice (79 FR 21408) [<http://edocket.access.gpo.gov/2005/pdf/05-8320.pdf>]. This amendment will allow OECA to collect information from enforcement and compliance files reviewed during routine on-site visits of state or local agency offices that will assist in the evaluation of the State Review Framework implementation from FY 2014 to the end of FY 2017. This request will allow EPA to make inquiries to assess the State Review Framework process, including the consistency achieved among the EPA Regions and states, the resources required to conduct the reviews, and the overall effectiveness of the program.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 521 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 54.

Frequency of response: Once every five years.

Estimated total average number of responses for each respondent: one.

Estimated total annual burden hours: 5,626.8 hours.

Estimated total annual costs: \$214,725.48. This includes an estimated burden cost of \$0 for capital investment or maintenance and operational costs.

Changes in the estimates: There has been a decrease in the hours in the total estimated respondent burden compared with that identified in the ICR currently

approved by OMB. There has been a decrease in the cost in the total estimated respondent burden based on implemented program efficiencies.

Acting Director, Collection Strategies Division.

Abstract: The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60, subpart A and any changes, or additions to the Provisions specified at 40 CFR part 60, subpart O. Owners or operators of the affected facilities must make an initial notification report, performance tests, periodic reports, and maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are required semiannually at a minimum.

Form Numbers: None.

Respondents/affected entities: Sewage sludge treatment plant incinerators.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart O).

Estimated number of respondents: 112 (total).

Frequency of response: Initially and semiannually.

Total estimated burden: 12,464 hours (per year). "Burden" is defined at 5 CFR 1320.3(b).

Total estimated cost: \$5,179,185 (per year), includes \$3,960,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in labor hours in this ICR compared to the most recently approved ICR. This is due to two considerations:
