

foreign investments in these two categories of Commission licensees. Therefore, we believe it is appropriate that our review of proposed broadcast investments remain on a case-by-case basis and be allowed to mature before we consider comprehensive rules and procedures similar to those applicable to foreign investment in common carrier licensees.³²

16. Some commenters have asserted that the underlying national security rationale for section 310(b)(4) in the broadcast area, protection from foreign propaganda on radio and television stations, no longer exists. Although many new potential threats and national security issues have arisen as technology has advanced,³³ we do not believe that the historical statutory concern for foreign influence over broadcast stations has disappeared. Broadcast stations are licensed to serve the needs and interests of local U.S. communities. They uniquely offer a range of critical information services to the American public, including, for instance, the provision of local, state, national, and international news, national Emergency Alerts, local severe weather alerts, Amber Alerts for missing children, and homeland security information. Ensuring that the ownership of broadcast licensees serves the public interest is embodied in a statutory directive with which we must faithfully comply and we will evaluate applications proposing foreign broadcast ownership accordingly. In particular, we will address each specific situation in terms of its potential public interest benefits and any relevant public interest concerns, including national security concerns, consistent with the statute and this Declaratory Ruling.

IV. Ordering Clause

17. Accordingly, *it is ordered* that, pursuant to the authority contained in sections 4(i) and 310(b) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 310(b), 5 U.S.C. 554(e) and § 1.2 of the Commission's rules, 47 CFR 1.2, this Declaratory Ruling in MB Docket No. 13–50 *is adopted*.

³² Some commenters raise additional suggestions for Commission review of foreign investment in broadcast licensees. Although many of these recommendations proffer thoughtful contributions to the proceeding record, it is premature to adopt them at this time. Our consideration of the numerous overarching issues involved in this area is ongoing. As we continue to address applications on a case-by-case basis, we will ascertain whether it is appropriate to conduct a rulemaking proceeding.
