

review findings between State agencies and FNS (arbitration process). The QC system also contains procedures that provide relief for State agencies when a State agency can demonstrate that a part or all of an excessive error rate was due to an unusual event that had an uncontrollable impact on the State agency's payment error rate (good cause process). Additionally, State agencies are required to maintain case records for three years to ensure compliance with provisions of the Food and Nutrition Act of 2008.

Need and Use of the Information: The quality control information collection is necessary to meet the requirements of Section 16 of the Act, which requires USDA to establish a system that enhances payment accuracy and improves administration by determining payment error rates, liabilities and performance bonuses.

Abstract: FNS administers the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) by awarding cash grants to State agencies (generally State health departments). The State agencies award subgrants to local agencies (generally local health departments and nonprofit organizations) to deliver program benefits and services to eligible participants. FNS maintains a WIC Local Agency Directory which lists the names and addresses of all WIC local agencies. WIC State and local agencies and FNS use the directory to refer individuals to the nearest source of WIC Program services and to maintain continuity of program services to migrant and other transient participants. It is also used as a mailing list to provide local agencies with technical assistance manuals and other information. State agencies complete the WIC Local Agency Directory Report Form FNS-648 to inform FNS when a local agency is newly established, closed or changes its address. This data is needed to keep the directory current.

The number of WIC State Agencies reporting remains at 90.
