Cross-Media Electronic Reporting: Authorized Program Revision Approval, State of New York

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's approval of the State of New York's request to modify its State Operating Permit Programs EPA-authorized program to allow electronic reporting.

DATES: EPA's approval is effective on December 20, 2013 for the State of New York's State Operating Permit Programs, if no timely request for a public hearing is received and accepted by the Agency.

FOR FURTHER INFORMATION CONTACT:

Karen Seeh, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue NW., Washington, DC 20460, (202) 566-1175, seeh.karen@epa.gov.

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the

option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On August 8, 2010 the New York State Department of Environmental Conservation (NYSDEC) submitted an amended application titled "Air Compliance and Emission Electronic Reporting System" for modification of its EPA-authorized Part 70 program under title 40 CFR. EPA reviewed NYSDEC's request to modify Part 70—"State Operating Permit Programs" and, based on this review, EPA determined that the application met the standards for approval of authorized program modification set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve New York State's request to modify its Part 70—State Operating Permit Programs to allow electronic reporting under 40 CFR part 70 is being published in the **Federal Register**.

NYSDEC was notified of EPA's determination to approve its application with respect to the authorized program listed above.

Proposed Modification of a General NPDES Permit for Small Suction Dredging—Permit Number IDG-37-0000

AGENCY: Region 10, Environmental Protection Agency.

ACTION: Proposed modification of a general permit.

SUMMARY: EPA proposes to modify a National Pollutant Discharge Elimination System (NPDES) General Permit for placer mining operations in Idaho using small suction dredges (intake nozzle size of 5 inches in diameter or less and with equipment rated at 15 horsepower or less). When the 2013 GP was issued, the language of the GP contained a discrepancy with the total maximum daily load (TMDL) that was issued for Mores Creek. The GP did not include any reference to the tributaries of Mores, Elk or Grimes creeks that were included in the loading allocations of the TMDL. This modification proposes to rectify that discrepancy by including a reference to the tributaries within the GP requirements for Mores, Grimes and Elk creeks and listing the tributaries in Appendix F to the GP. Other parts of the GP are not open for public comment at this time.

DATES: Interested persons may submit comments on the proposed modification of the general permit to EPA, Region 10 at the address below. Comments must be postmarked by February 3, 2014.

ADDRESSES: Comments on the proposed modified General Permit should be sent to Director, Office of Water and Watersheds; USEPA Region 10; 1200 Sixth Avenue Suite 900, OWW-130; Seattle, Washington 98101. Comments may also be submitted by fax to (206)

553-0165 or electronically to godsey.cindi@epa.gov.

FOR FURTHER INFORMATION CONTACT:

Copies of the proposed modified general permit and Statement of Basis are available upon request. Requests may be made to Audrey Washington at (206) 553-0523 or to Cindi Godsey at (907) 271-6561. Requests may also be electronically mailed to:

washington.audrey@epa.gov or godsey.cindi@epa.gov. These documents may also be found on the EPA Region 10 Web site at <http://yosemite.epa.gov/R10/water.nsf/NPDES+Permits/Permits+Homepage> then click on "Draft Permits" then "Draft Permits for Idaho Dischargers."

SUPPLEMENTARY INFORMATION:

Executive Order 12866: The Office of Management and Budget has exempted this action from the review requirements of Executive Order 12866 pursuant to Section 6 of that order.

Regulatory Flexibility Act: Under the Regulatory Flexibility Act (RFA), 5 U.S.C. 601 *et seq.*, a Federal agency must prepare an initial regulatory flexibility analysis "for any proposed rule" for which the agency "is required by section 553 of the Administrative Procedure Act (APA), or any other law, to publish general notice of proposed rulemaking." The RFA exempts from this requirement any rule that the issuing agency certifies "will not, if promulgated, have a significant economic impact on a substantial number of small entities." EPA has concluded that NPDES general permits are permits, not rulemakings, under the APA and thus not subject to APA rulemaking requirements or the RFA. Notwithstanding that general permits are not subject to the RFA, EPA has determined that this GP, as issued, will not have a significant economic impact on a substantial number of small entities.
