SUPPLEMENTARY INFORMATION: This ICR seeks to maintain PRA authorization for the Student Data Form, Form OSHA-182. The Occupational Safety and Health Act of 1970 (OSH Act) authorizes the OSHA to conduct education and training courses. See 29 U.S.C. 670. These courses must educate an adequate number of qualified personnel to fulfill OSH Act purposes, provide personnel with short-term training, inform students of the importance and proper use of safety and health equipment, and train employers and workers to recognize, avoid, and prevent unsafe and unhealthful working conditions. The OSHA Training Institute provides basic, intermediate, and advanced training and education in occupational safety and health for Federal and State compliance officers, OSHA professionals and technical-support personnel, employers, workers, organizations representing workers and employers, educators who develop curricula and teach occupational safety and health courses, and representatives of professional safety and health groups.

Students attending OSHA Training Institute courses complete a one-page Student Data Form on the first day of class. The Student Data Form collects information under five major categories; course information, personal data, employer data, emergency contacts, and student groups. The OSHA uses information provided on the Student Data Form to contact a designated person in case of an emergency, to prepare certain OSH Act-required reports, tuition receipts, to evaluate training output, and to make decisions regarding program/course revisions, budget support, and tuition costs.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this
