SUPPLEMENTARY INFORMATION: On October 25, 2013, DOE published a NOPR in the **Federal Register** (78 FR 64067) to make available and invite comments on the proposed rule regarding energy conservation standards for residential furnace fans. That notice set a deadline for the submission of written comment by December 24, 2013, and comments were also accepted at a public meeting held at DOE Headquarters on December 3, 2013. Several stakeholders requested an extension of the comment period. These stakeholders stated the additional time is necessary for interested parties to consider and respond to the proposed rule and public meeting presentation, in order to submit meaningful and useful comments.

After careful consideration of the multiple requests for more time to develop comments, DOE has determined that an extension of the

public comment period is appropriate and in the public interest based on the foregoing reasoning. Accordingly, DOE is hereby extending the comment period and will consider any comments received by January 23, 2014.

Issued in Washington, DC, on December 18, 2013.

Kathleen B. Hogan,

Requirements for Contacts with Federal Credit Unions

AGENCY: National Credit Union Administration (NCUA).

SUPPLEMENTARY INFORMATION:

- I. Background
- II. Summary of the Proposed Rule
- III. Regulatory Procedures

I. Background

1. NCUA Authority to Regulate Settings of FCU Examinations and Other On-Site Contacts, Require Production of Records, and Regulate Operating Conditions of FCUs

The Federal Credit Union Act (Act) requires FCUs to “make financial reports to it [the NCUA Board] as and when it may require” and requires FCUs to make “books and records accessible to” NCUA for examination purposes.¹ Likewise, federally insured, state-chartered credit unions must make “reports of condition . . . in such form . . . as the Board may require.”² Under this authority, the Board requires all insured credit unions to file quarterly call reports.³

The Act also requires and authorizes the Board to appoint examiners to examine any insured credit union to determine the credit union's condition.⁴ NCUA examiners often review and verify the information credit unions submit in their call reports through on-site examinations. Specialized NCUA staff, such as problem case officers, also

visit credit unions to address issues identified in the examination process.

In addition to the Board's statutory responsibilities to obtain financial reports and conduct examinations of insured credit unions, the Act gives the Board general authority to adopt regulations related to the oversight of FCUs. Taken together, these powers give the Board the authority to specify the location and other conditions of examinations and other on-site contacts with FCUs, as well as to require FCUs to conduct business in a commercial setting rather than in a home.

2. NCUA Authority To Direct Conditions of Work for NCUA Employees

The Act grants the Board authority to “direct employees of the Board”⁵ and “define their duties.”⁶ Most of NCUA's 1,260 employees are credit union examiners who work on-site at credit union locations, performing examinations and other types of reviews. By requiring that all examinations and other on-site contacts between NCUA staff and FCU officials occur in business offices or other public locations, the proposal ensures that examinations and other FCU contacts occur in a professional and safe setting.

3. Home-Based Credit Unions

In the early days of credit union organizing, it was common for a credit union to operate out of the home of one of its officials. As credit unions grew, however, most added offices either at a sponsor's location or in another commercial setting. NCUA has identified approximately 95 remaining home-based, federally insured credit unions. These are credit unions operated out of a home or on the premises of a home address, such as in a garage, sunroom, or basement apartment. Eighty-one of these are FCUs, with assets ranging from \$34,000 to \$12,000,000. Most of these FCUs are very small; 34 have assets below \$1,000,000 and 38 have assets between \$1,000,000 and \$5,000,000.⁷

More recently, NCUA has encouraged examiners and other staff to arrange meetings with officials of home-based FCUs in public places, such as libraries or hotel conference rooms. NCUA did not, however, prohibit staff from meeting with an FCU official at a private

⁷ The 14 federally insured, state-chartered, home-based credit unions have assets ranging from \$115,000 to nearly \$11,000,000. The state-chartered, home-based credit unions are located in nine states as follows: Kansas has five, Utah has two, and Alabama, Illinois, Minnesota, Nebraska, Ohio, Pennsylvania, and Vermont each have one.
