The conference was held in Washington, DC, on November 12, 2013, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on December 13, 2013. The views of the Commission are contained in USITC Publication 4444 (December 2013), entitled *1,1,1,2-Tetrafluoroethane from China, Investigation Nos. 701-TA-509 and 731-TA-1244 (Preliminary)*.

In the Complaint the United States, on behalf of the U.S. Environmental Protection Agency (EPA), alleges that the defendant City of West Haven ("West Haven") violated the Clean Water Act ("CWA"), 33 U.S.C. 1251, et seq., and applicable regulations relating to West Haven's unauthorized discharges from the waste water collection system owned and operated by the City. The Consent Decree requires West Haven to pay a civil penalty of \$125,000 in three installments, with interest, divided between the United States and the State of Connecticut, and to undertake various measures to study and correct the problems causing the SSOs in order to achieve compliance with the CWA and applicable regulations.

SUPPLEMENTARY INFORMATION:

I. Background

Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 813, authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners.

Title 30 CFR 71.400 through 71.402 and 75.1712–1 through 75.1712–3 require coal mine operators to provide bathing facilities, clothing change rooms, and sanitary flush toilet facilities in a location that is convenient for use of the miners. If the operator is unable to meet any or all of the requirements, he/she may apply for a waiver. Title 30 CFR 71.403, 71.404, 75.1712–4, and 75.1712–5 provide procedures by which an operator may apply for and be granted a waiver. Applications are filed with the District Manager for the district in which the mine is located and must contain the name and address of the mine operator, name and location of the mine, and a detailed statement of the grounds on which the waiver is requested.

Waivers for surface mines may be granted by the District Manager for a period not to exceed one year. If the waiver is granted, surface mine operators may apply for annual extensions of the approved waiver. Waivers for underground mines may be granted by the District Manager for the period of time requested by the underground mine operator as long as the circumstances that were used to justify granting the waiver remain in effect. Waivers are not transferable to a successor coal mine operator.
