[Project No. 2305-036]

**Sabine River Authority of Texas and Sabine River Authority, State of Louisiana; Notice of Availability of the Final Environmental Impact Statement for the Toledo Bend Hydroelectric Project**

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission (Commission or FERC) regulations contained in the Code of Federal Regulations (CFR) (18 CFR part 380), the Office of Energy Projects has reviewed the application for license for the Toledo Bend Hydroelectric Project (FERC No. 2305) and has prepared a final environmental impact statement (EIS) for the project.

The existing project is located on the Sabine River between river mile (RM) 147 and RM 279, affecting lands and waters in Panola, Shelby, Sabine, and Newton Counties, Texas, and De Soto, Sabine, and Vernon Parishes, Louisiana. The project occupies lands within the Sabine National Forest in Texas and the Indian Mounds Wilderness Area,

administered by the U.S. Department of Agriculture—Forest Service.

The final EIS contains staff's analysis of the applicants' proposals and the alternatives for relicensing the Toledo Bend Project. The final EIS documents the views of governmental agencies, non-governmental organizations, affected Indian tribes, the public, the license applicants, and Commission staff.

A copy of the final EIS is available for review at the Commission or may be viewed on the Commission's Web site at <http://www.ferc.gov>, using the "e-Library" link. **Notice of Technical Conference**

	Docket Nos.

Electricity Market Transparency Provisions of Section 220 of the Federal Power Act .....	RM10-12-000
Revisions to Electric Quarterly Report Filing Process .....	RM12-3-000
Revised Public Utility Filing Requirements for Electric Quarterly Reports .....	ER02-2001-000

Take notice that on January 22, 2014, the staff of the Federal Energy Regulatory Commission (Commission) will hold a technical conference on the Revisions to Electric Quarterly Report (EQR) Filing Process. The conference will take place from 10:00 a.m. to 1:00 p.m. (EST), in the Commission Meeting Room at 888 First Street NE., Washington, DC 20426. The public may attend.

Commission staff will demonstrate the new EQR filing system announced

in Order No. 770.<sup>1</sup> The new filing system includes two options for filing EQRs: one that will allow EQR users to file through a web interface on the Commission's Web site, and a second that will allow an EQR filer to file its EQR in an Extensible Mark-up Language formatted file. At the conference, staff will demonstrate how to make a filing

<sup>1</sup> *Revisions to Electric Quarterly Report Filing Process*, Order No. 770, FERC Stats. & Regs. ¶ 31,338 (2012).

using both the XML and web interface approaches.

The new EQR filing system is being prepared for deployment and testing logs indicate that users are successfully making filings in the test sandbox. However, in an effort to assure robust testing by users, staff would like to allow the public additional time to test the new system after having the benefit of participating in the January 22, 2013 technical conference. Staff believes that this will allow the public the opportunity to provide any additional

feedback before parties are required to file under the new system. For this reason, staff anticipates that the first filings under the new system (for 3Q EQRs) will be due sometime around March 1 through March 30. Further information regarding the 3Q filing deadline will be forthcoming in a subsequent notice.

Any additional information regarding the agenda for the technical conference will be posted prior to the conference on the Calendar of Events on the Commission's Web site, [www.ferc.gov](http://www.ferc.gov).

A free webcast of the conference will be available through [www.ferc.gov](http://www.ferc.gov). Anyone with Internet access interested in viewing this conference can do so by navigating to [www.ferc.gov](http://www.ferc.gov)'s Calendar of Events and locating this event in the Calendar. The event will contain a link to the webcast. Capitol Connection provides technical support for the webcasts and offers the option of listening to the conferences via phone-bridge for a fee. If you need technical support, please visit [www.CapitolConnections.org](http://www.CapitolConnections.org) or call (703) 993-3100.

Teleconferencing will be available. Participants interested in attending via teleconference must register at <https://www.ferc.gov/whats-new/registration/eqr-01-22-14-form.asp> by close of business on Thursday, January 16, 2014. Teleconferencing may not be available to those who do not register.

Commission conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations, please send an email to [accessibility@ferc.gov](mailto:accessibility@ferc.gov) or call toll free 1-866-208-3372 (voice) or 202-208-1659 (TTY), or send a FAX to 202-208-2106 with the required accommodations.

For more information about the technical conference, please contact: Astrid Kirstin Rapp, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, (202) 502-6264, [Astrid.Rapp@ferc.gov](mailto:Astrid.Rapp@ferc.gov).

Dated: December 20, 2013.

### Federal Energy Regulatory Commission

[Docket No. RM98-1-000]

#### Records Governing Off-the-Record Communications

This constitutes notice, in accordance with 18 CFR 385.2201(b), of the receipt of prohibited and exempt off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive a prohibited or exempt off-the-record communication relevant to the merits of a contested proceeding, to deliver to the Secretary of the Commission, a copy of the communication, if written, or a summary of the substance of any oral communication.

Prohibited communications are included in a public, non-decisional file associated with, but not a part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become a part of the decisional record, the prohibited

off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of off-the-record communications recently received by the Secretary of the Commission. The communications listed are grouped chronologically, in ascending order. These filings are available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the eLibrary link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. For assistance, please contact FERC, Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.
