

for an instrument rating found in § 61.65 and appendix C to part 141.

LOAs that are reissued in accordance with this notice will contain language noting the previously discussed exemption that will permit operators of approved devices to continue to use ATDs at the higher levels set forth in the previously approved LOAs—and pilots applying for an instrument rating will be permitted to take the practical test with the aeronautical experience set forth in the LOAs—until January 1, 2015. After this date, no applicant for an instrument rating may use more than 10 hours of instrument training in an ATD toward the minimum aeronautical experience requirements required to take the practical test for an instrument rating. In addition, no graduate of a training program approved under appendix C to part 141 may credit more than 10% of the required coursework in ATDs (unless that program has been approved in accordance with § 141.55(d) or (e)).⁴ The FAA expects manufacturers and operators to adjust training in advance of this date so that no applicant for an instrument rating is ineligible. The FAA notes that the regulations do not place a limit on the amount of time that a person may train in an ATD. Rather, the regulations place a limit on the amount of time in an ATD that may be credited toward the aeronautical experience requirements for an instrument rating. Operators may continue to use these devices to improve pilot proficiency and reduce more costly time in an aircraft.

In order for any device, regardless of issue date, to be used to gain the aeronautical experience and currency described in the letter of authorization, that device must continue to perform to standards required by that authorization. In addition, all conditions noted on the letter of authorization must continue to be valid. These conditions may include an annual periodic inspection and stakeholder report verifying performance to original standards.

⁴ Part 141 Appendix C describes the curriculum requirements for an approved training course. After January 1, 2015, no courses approved under part 141 appendix C rating may allow for more than 10% of the required coursework to have been completed in an ATD. After January 1, 2015, no person may graduate from a course that allows for more than 10% of the required coursework to have been completed in an ATD. The exception is those courses that have been approved under § 141.55 (d) and (e). The FAA recognizes that some pilot schools will need to revise their instrument-rating training program to reflect the 10% crediting limitation and resubmit for approval. Alternatively, a pilot school may elect to resubmit their training course for approval under § 141.55 (d) and (e).

Applications for new LOAs

As noted above, all devices that received initial approval before August 23, 2013 will require a new LOA to be issued before January 1, 2015, in order to continue to be used to obtain aeronautical experience to meet requirements under parts 61 and 141. The FAA does not intend to reevaluate every individual device as is the case for FFSs and FTDs under part 60. Rather, the FAA wants to ensure that the type of device meets acceptable standards for use in crediting aeronautical experience and currency. The manufacturer will be responsible for providing a copy of the renewed LOA to any operator of the device.

Devices that received approval between July 14, 2008, and August 23, 2013

Devices that were approved between July 14, 2008 and August 23, 2013 have been assessed under the current standards in AC 61–136; however, these devices may not contain the current regulatory limits of § 61.65(i) or part 141 Appendix C. Any LOA issued after July 14, 2008, may be reissued without the need for additional evaluation. Manufacturers must, however, submit a letter to the General Aviation and Commercial Division (AFS–800), including a copy of the original authorization, requesting a revised LOA that will contain regulatory references that reflect current requirements. If the LOA contains an expiration date, this new authorization will retain the original expiration date.⁵ For LOAs originally issued without an expiration date, the new LOA will reflect a five-year expiration date.

The new LOA will replace and supersede the previous authorization. However, as noted, the FAA will continue to accept applicants for the instrument rating practical test who need to credit more than 10 hours of instrument time in an ATD to meet the minimum aeronautical experience requirements until January 1, 2015.

Devices approved prior to July 14, 2008

All devices (including ground trainers, PCATD, FTD level 1–3, and ATDs) for which an LOA (or any other official method of approval) was issued prior to July 2008 must be reevaluated under the standards set forth in the current advisory circular. Manufacturers of these devices will be required to demonstrate that the device meets the current standards for ATDs set forth in AC 61–136. The manufacturer must request this evaluation by the means

⁵ Since January 2012, all LOAs have been issued to manufacturers with a five-year expiration date.

described in AC 61–136 no later than July 1, 2014, in order to ensure that the FAA has adequate time to evaluate the device and issue a new LOA before the existing LOA terminates on January 1, 2015. The FAA cannot guarantee that applications for reissued LOAs that are received after July 1, 2014, will be processed prior to the termination date. The LOAs reissued for these devices will be revised to contain expiration dates and reflect current regulatory requirements and references.

Disposition

The FAA has initiated a revision to AC 61–136 and will amend obsolete guidance concerning the approval and use of PCATD's, FTD's (level 1–3) and ATDs. The FAA will insert into AC 61–136 all of the above policy concerning these training devices. Please direct any questions or requests concerning information in this notice to AFS–810, Airmen Certification and Training Branch, 800 Independence Ave. SW., Washington, DC 20591.

Issued in Washington, DC, on December 19, 2013.

Revisions to the Export Administration Regulations: Military Vehicles; Vessels of War; Submersible Vessels, Oceanographic Equipment; Related Items; and Auxiliary and Miscellaneous Items That the President Determines No Longer Warrant Control Under the United States Munitions List; Final Rule; Correction

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule; correction

SUMMARY: The Bureau of Industry and Security (BIS) is correcting a final rule that appeared in the **Federal Register** of July 8, 2013 (78 FR 40892) (here and after referred to as the July 8 rule), which becomes effective on January 6, 2014. The July 8 rule adds to the Export Administration Regulations (EAR) controls on military vehicles and related

items; vessels of war and related items; submersible vessels, oceanographic equipment and related items; and auxiliary and miscellaneous items that the President has determined no longer warrant control on the United States Munitions List (USML). The July 8 rule also adds to the EAR controls on items within the scope of the Munitions List (WAML) of the Wassenaar Arrangement on Export Controls for Conventional Arms and Dual-Use Goods and Technologies (Wassenaar Arrangement) that are not specifically identified on the USML or the Commerce Control List (CCL) but that were subject to USML jurisdiction. Finally, the July 8 rule moves certain items that were already subject to the EAR to the new Export Control Classification Numbers (ECCNs) created by this rule. The July 8 rule was published in conjunction with the publication of a Department of State, Directorate of Defense Trade Controls rule revising USML Categories VII, VI, XX, and XIII to control those articles the President has determined warrant control in those Categories of the USML. Both rules are part of the President's Export Control Reform Initiative. The revisions in the July 8 final rule are also part of Commerce's retrospective regulatory review plan under Executive Order (EO) 13563. The Department of State is also correcting today its final rule that appeared in the **Federal Register** of July 8, 2013 (78 FR 40922). **DATES:** This rule is effective January 6, 2014.

SUPPLEMENTARY INFORMATION:

Background

The Bureau of Industry and Security (BIS) provides the following corrections to the final rule that appeared in the **Federal Register** of July 8, 2013 (78 FR 40892). These include correcting regulatory text to ensure the regulatory text reflects the intent of the July 8 final rule and the regulatory text of other final rules published implementing Export Control Reform. In addition, these corrections remove references to Export Control Classification Number (ECCN) 8A018 in other parts of the EAR because it is no longer needed based on the amendments included in the July 8 final rule.

In FR Doc. 2013-16238 appearing on page 40892 in the **Federal Register** of Monday, July 8, 2013, the following corrections are made:

1. On page 40892, in the first column, in the heading, "15 CFR Parts 740, 742, 770, 772 and 774" is corrected to read "15 CFR Parts 740, 742, 744, 770, 772 and 774".

2. On page 40907, in the third column, at the end of the preamble text that begins with the heading "Amendments to ECCN 8A018" add the new heading and preamble text, "Conforming Changes for Amendments to ECCN 8A018 This final rule makes conforming changes to Supplement No. 2 to part 744—List of Items Subject to the Military End-use License Requirement of § 744.21, and ECCNs 8A002, 8A992, 8D001 and 8E001 to remove references to ECCN 8A018. The references to ECCN 8A018 are no longer needed in these other EAR references because of the amendments made to ECCN 8A018 in this final rule."

3. On page 40910, in the second column, before the Regulatory Requirements section add the new heading and preamble text, "Clarification of "600 series" .y Paragraphs BIS has received questions from the public regarding the classification of "parts," "components," "accessories," and "attachments" "specially designed" for commodities specified in the respective "600 series" .y paragraphs. These questioners believed BIS's intent was likely that such "parts," "components," "accessories," and "attachments," were also intended to be classified under those respective .y paragraphs and not under "600 series" .x paragraphs. To clarify the classification of such commodities, BIS adds the phrase "and "parts," "components," "accessories," and "attachments" "specially designed" therefor" to the end of the .y paragraphs in ECCNs 0A606, 0A617, 0B617, 8A609, 8A620, 8B609 and 8B620. These

changes to these .y paragraphs will make it clear that such commodities are also classified under the .y paragraphs in these respective "600 series" ECCNs."

4. On page 40911, in the first column, the list of subjects and the words of issuance are corrected to read as follows:

List of Subjects

15 CFR Part 740

15 CFR Part 744

Amendment to the International Traffic in Arms Regulations: Continued Implementation of Export Control Reform; Correction

AGENCY: Department of State.

ACTION: Final rule, correction.

SUMMARY: The Department of State is correcting a final rule that appeared in the *Federal Register* of July 8, 2013 (78 FR 40922). That rule amended the International Traffic in Arms Regulations (ITAR) to revise four U.S. Munitions List (USML) categories and provide new and revised definitions.

DATES: This rule is effective January 6, 2014.

FOR FURTHER INFORMATION CONTACT: Ms. Sarah J. Heidema, Deputy Director, Office of Defense Trade Controls Policy, Department of State, telephone (202) 663–2809; email DDTCResponseTeam@state.gov. ATTN: Regulatory Change, Corrections to Second ECR Final Rule.

SUPPLEMENTARY INFORMATION: The Department provides the following corrections to the rule, “Amendment to

the International Traffic in Arms Regulations: Continued Implementation of Export Control Reform,” published on July 8, 2013 and effective on January 6, 2014 (78 FR 40922). As part of the President’s Export Control Reform (ECR) effort, that rule amended the International Traffic in Arms Regulations (ITAR) to revise four U.S. Munitions List (USML) categories and provide new and revised definitions.

The changes in this rule are meant to clarify the regulation by correcting punctuation, providing exact effective dates for the paragraphs regarding developmental articles, and providing a revised Supplement No. 1 to part 126, which takes into account the changes made to the USML categories revised in the rule published on July 8, 2013.

Pursuant to ECR, the Department of Commerce has been publishing revisions to the Export Administration Regulations, including various revisions to the Commerce Control List (CCL). Revision of the USML and CCL are coordinated so there is uninterrupted regulatory coverage for items moving from the jurisdiction of the Department of State to that of the Department of Commerce. The Department of Commerce’s companion to the rule corrected in this notice (*see* “Revisions to the Export Administration Regulations: Military Vehicles; Vessels of War; Submersible Vessels, Oceanographic Equipment; Related Items; and Auxiliary and Miscellaneous Items That the President Determines No Longer Warrant Control Under the United States Munitions List,” 78 FR 40892) is also corrected in this edition of the *Federal Register*.

The following corrections are made to the rule, “Amendment to the International Traffic in Arms Regulations: Continued Implementation of Export Control Reform,” published on July 8, 2013:

■ 1. On page 40924, in the third column, in the second from last paragraph, after “introduction,” add the following: “The Department also notes that paragraph (d)(1) controls ablative materials, articles the subject of unrevised USML Category IV(f). The Department reiterates the principle provided in the first rule implementing Export Control Reform (*see* 78 FR 22740): where there is overlap in control regarding a particular article, the control of the revised USML category supersedes that of the unrevised USML category.”

PART 121—[CORRECTED]

§ 121.1 [Corrected]

■ 2. On page 40928, in the first column, in Category VI, paragraph (c), a comma
