

- Conducting “variable retention” regeneration harvest and post-harvest burning activities on up to 2300 acres distributed across the focus areas to create early successional plant communities and improve wildlife habitat while re-establishing long-lived early seral tree species. Variable retention harvest would include areas of full retention (clumps), irregular edges, and retention of snags and legacy trees to provide structure and a future source of woody debris. Openings would likely exceed 40 acres. Creation of openings over 40 acres requires 60 day public review and Regional Forest approval. This letter provides public notice that an environmental impact statement will be prepared and Regional Forester approval requested.

- Applying improvement harvest (thin from below) on approximately 875 acres to remove encroachment and ladder fuels from ponderosa pine dominated stands.

- Construct up to 18 miles of temporary roads to carry out the proposed action. Roads would be designed and located to minimize environmental effects and decommissioned after use.

- Harvest would be conducted by ground based (tractor/skyline) and aerial (helicopter) logging systems. Logs would likely be landed in the Wild and Scenic River corridor at designated helicopter landings.

- Creating a shaded fuel break and defensible space for approximately 300 feet on NFS lands adjacent to private properties within the project area. This may include commercial and non-commercial thinning, pruning of ladder fuels and hand piling of slash.

#### Watershed Improvement

- 2–3 miles of system roads no longer considered necessary for transportation needs would be decommissioned.

- Maintaining and improving of 7–10 miles of roads used to support the proposed actions. Maintenance or improvement may include culvert installation or replacement, ditch cleaning, and riprap placement for drainage improvement. It may also include gravel placement, road grading and dust abatement.

Possible Alternatives the Forest Service will consider include a no-action alternative, which will serve as a baseline for comparison of alternatives. The proposed action will be considered along with additional alternatives that will be developed to meet the purpose and need for action, and to address significant issues identified during scoping.

#### Responsible Official and Lead Agency

The USDA Forest Service is the lead agency for this proposal. The Nez Perce-Clearwater Forest Supervisor is the responsible official.

The Decision To Be Made is whether to adopt the proposed action, in whole or in part, or another alternative; and what mitigation measures and management requirements will be implemented.

The Scoping Process for the EIS is being initiated with this notice. The scoping process will identify issues to be analyzed in detail and will lead to the development of alternatives to the proposal. The Forest Service is seeking information and comments from other Federal, State, and local agencies; Tribal Governments; and organizations and individuals who may be interested in or affected by the proposed action. Comments received in response to this notice, including the names and addresses of those who comment, will be a part of the project record and available for public review.

Early Notice of Importance of Public Participation in Subsequent Environmental Review: A draft environmental impact statement will be prepared for comment. The second major opportunity for public input will be when the draft EIS is published. The comment period for the draft EIS will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**. The Draft EIS is anticipated to be available for public review in May 2013.

Dated: December 20, 2013.

#### BUREAU OF CONSUMER FINANCIAL PROTECTION

[Docket No.: CFPB-2013-0036]

##### Request for Information Regarding the Mortgage Closing Process

**AGENCY:** Bureau of Consumer Financial Protection.

**ACTION:** Notice and request for information.

**SUMMARY:** This notice requests information from the public about mortgage closing. Specifically, the Consumer Financial Protection Bureau (CFPB) seeks information on key consumer “pain points” associated with mortgage closing and how those pain points might be addressed by market innovations and technology.

The CFPB seeks to encourage the development of a more streamlined, efficient, and educational closing process as the mortgage industry increases its usage of technology, electronic signatures, and paperless processes. The next phase of CFPB’s *Know Before You Owe* initiative aims to identify ways to improve the mortgage closing process for consumers. This project will encourage interventions that increase consumer knowledge, understanding, and confidence at closing.

This notice seeks information from market participants, consumers, and other stakeholders who work closely with consumers. The information will inform the CFPB’s understanding of what consumers find most problematic about the current closing process and inform the CFPB’s vision for an improved closing experience.

**DATES:** Submit comments on or before February 7, 2014.

**ADDRESSES:** You may submit responsive information and other comments, identified by Docket No. CFPB-2013-0036, by any of the following methods:

- *Electronic:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

- *Mail/Hand Delivery/Courier:* Monica Jackson, Office of the Executive Secretary, Consumer Financial Protection Bureau, 1700 G Street NW., Washington, DC 20552.

*Instructions:* The Bureau encourages the early submission of comments. All
