FOR FURTHER INFORMATION CONTACT: Amy Hapeman or Kristy Beard, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject amendment to Permit No. 16479-01 is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Permit No. 16479, issued on September 18, 2012 (77 FR 59594), authorizes the permit holder to conduct vessel-based research on humpback whales in waters around Maui, Hawaii to quantify the potential for near misses between vessels and humpback whales (*Megaptera novaeangliae*), and define the probability of 'surprise encounters' with humpback whales. Up to 567 humpback whales may be approached annually for photo-identification and behavioral observation and up to 240 Hawaiian insular false killer whales (*Pseudorca crassidens*) may be incidentally harassed during research. A minor amendment (No. 01) to the permit was issued on August 23, 2013, authorizing the field season to start in December versus January of each permit year. The Permit Holder is requesting the permit be amended to authorize research activities (approaches for

photo-identification and behavioral observation) on the false killer whales to study their occurrence, distribution, movement, site fidelity, abundance, social organization, home ranges, and life history. The number of takes authorized for the stock would not change. The permit expires on June 1, 2017.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activities proposed are consistent with the Proposed Action Alternative in the Environmental Assessment (EA) on Effects of Issuing Marine Mammal Scientific Research Permit No. 16479 (NMFS 2012). Based on the analyses in the EA, NMFS determined that issuance of the permit would not significantly impact the quality of the human environment and that preparation of an environmental impact statement was not required. That determination is documented in a Finding of No Significant Impact (FONSI), signed on September 17, 2012. That EA and FONSI are available upon request. A new FONSI will be prepared for this action.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: January 7, 2014.

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

On September 17, 2013, notice was published in the **Federal Register** (78 FR 57133) that a request for an amendment Permit No. 14514 to receive, import, and export marine mammal specimens for scientific research had been submitted by the above-named applicant. The requested permit amendment has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

Permit No. 14514-01 authorizes an increase the number of animals from which pinniped samples may be received, imported, or exported from 100 to 700 animals per year for additional studies on viral pathogens (adenovirus and herpesvirus). The permit amendment also authorizes personnel changes.
