

condor management actions, but to a lesser extent than Alternative B, and work with partners to increase some guided visitor and volunteer opportunities. The Refuge would remain closed to public use.

Selected Alternative for All Three Refuges

During the review and comment period, we received 25 letters on the Draft CCP/EA containing over 750 comments. Comments focused on habitat management (including grazing, fire management, and protection of special status plants) and visitor services (wildlife-dependent recreation). We incorporated comments we received into the CCP when appropriate and we responded to the comments in an appendix to the CCP. In the FONSI, we selected Alternative B for implementation for all three Refuges. The FONSI documents our decision and is based on the information and analysis contained in the EA.

Under the selected alternative, the Service will expand both natural resource management and visitor services opportunities on the Refuges. Additional biological activities would include baseline surveys on native flora and fauna. Other habitat management activities would include development of a comprehensive integrated pest management plan and addressing the effects of climate change on Refuge resources.

Visitor services, specifically interpretation and environmental education opportunities, would be expanded at all three refuges. Additional volunteer opportunities would be offered at Hopper Mountain and Bitter Creek NWRs. A new Refuge administrative office with visitor area, and a condor observation area would be constructed at Bitter Creek NWR.

The selected alternative best meets the Refuges' purposes, vision, and goals; contributes to the Refuge System mission; addresses the significant issues and relevant mandates; and is consistent with principles of sound fish and wildlife management. Implementation of the selected alternative will be subject to the availability of funding and other resources, and may occur incrementally over the life of the 15-year plan. Based on the associated environmental assessment, this alternative is not expected to result in significant environmental impacts and

therefore does not require an environmental impact statement.

Endangered Species; Receipt of Applications for Permit

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of applications for permit.

SUMMARY: We, the U.S. Fish and Wildlife Service, invite the public to comment on the following applications to conduct certain activities with endangered species. With some exceptions, the Endangered Species Act (ESA) prohibits activities with listed species unless Federal authorization is acquired that allows such activities.

DATES: We must receive comments or requests for documents on or before February 12, 2014.

ADDRESSES: Brenda Tapia, Division of Management Authority, U.S. Fish and Wildlife Service, 4401 North Fairfax Drive, Room 212, Arlington, VA 22203; fax (703) 358-2280; or email DMAFR@fws.gov.

FOR FURTHER INFORMATION CONTACT: Brenda Tapia, (703) 358-2104 (telephone); (703) 358-2280 (fax); DMAFR@fws.gov (email).

SUPPLEMENTARY INFORMATION:

I. Public Comment Procedures

A. How do I request copies of applications or comment on submitted applications?

Send your request for copies of applications or comments and materials concerning any of the applications to the contact listed under **ADDRESSES**. Please include the **Federal Register** notice publication date, the PRT-number, and the name of the applicant in your request or submission. We will not consider requests or comments sent to an email or address not listed under **ADDRESSES**. If you provide an email address in your request for copies of applications, we will attempt to respond to your request electronically.

Please make your requests or comments as specific as possible. Please

confine your comments to issues for which we seek comments in this notice, and explain the basis for your comments. Include sufficient information with your comments to allow us to authenticate any scientific or commercial data you include.

The comments and recommendations that will be most useful and likely to influence agency decisions are: (1) Those supported by quantitative information or studies; and (2) Those that include citations to, and analyses of, the applicable laws and regulations. We will not consider or include in our administrative record comments we receive after the close of the comment period (see **DATES**) or comments delivered to an address other than those listed above (see **ADDRESSES**).

B. May I review comments submitted by others?

Comments, including names and street addresses of respondents, will be available for public review at the street address listed under **ADDRESSES**. The public may review documents and other information applicants have sent in support of the application unless our allowing viewing would violate the Privacy Act or Freedom of Information Act. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

II. Background

To help us carry out our conservation responsibilities for affected species, and in consideration of section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), along with Executive Order 13576, "Delivering an Efficient, Effective, and Accountable Government," and the President's Memorandum for the Heads of Executive Departments and Agencies of January 21, 2009—Transparency and Open Government (74 FR 4685; January 26, 2009), which call on all Federal agencies to promote openness and transparency in Government by disclosing information to the public, we invite public comment on these permit applications before final action is taken.
