

paragraph (f)(7) of this AD, before further flight, take all necessary corrective actions following the Accomplishment Instructions in APPH Ltd. Service Bulletin No. 32–40, Revision 1, dated February 2003, as referenced in British Aerospace Jetstream Series 3100 & 3200 Service Bulletin 32–A–JA851226, Revision 5, dated April 30, 2013.

(9) *For all airplanes:* Doing all necessary corrective actions required in paragraphs (f)(4), (f)(6), and (f)(8) of this AD does not constitute terminating action for the inspections required by this AD.

(10) *For all airplanes:* Modification of each MLG cylinder following BAE Systems (Operations) Ltd. Service Bulletin 32–JA880340, original issue, dated January 6, 1989, constitutes terminating action for the inspections required by this AD for that MLG.

(11) *For all airplanes:* The compliance times in paragraphs (f)(2), (f)(3), (f)(5), and (f)(7) of this AD are presented in flight cycles (landings). If the total flight cycles have not been kept, multiply the total number of airplane hours time-in-service (TIS) by 0.75 to calculate the cycles. For the purposes of this AD:

- (i) 100 hours TIS \times .75 = 75 cycles; and
- (ii) 1,000 hours TIS \times .75 = 750 cycles.

(g) Credit for Actions Done in Accordance With Previous Service Information

This AD allows credit for the initial inspection required in paragraph (f)(7) of this AD if done before the effective date of this AD following APPH Ltd. Service Bulletin 32–40, at Initial Issue dated June 21, 1989.

I. Executive Summary

A. Purpose of Regulatory Action

The purpose of this proposed rule is to make minor technical changes to HHS regulations in 42 CFR part 85a, pertaining to occupational safety and health investigations of places of employment. Proposed amendments to the existing rule include striking references to obsolete government offices or agencies, updating the proper NIOSH office from which to request specific reports of investigations, and correcting outdated terms such as "motion pictures." Obsolete terms and outdated language in Part 85a were identified during the agency's retrospective analysis of existing regulations, in accordance with Executive Order 13563.

B. Summary of Major Provisions

Proposed amendments to 42 CFR part 85a include the following: § 85a.2 (alphabetize definitions and strike definitions of "NIOSH Regional Office," and "BOM (Bureau of Mines)" and remove reference to "Public Health Service" within the definition of "NIOSH"), § 85a.4 (clarify that the union at the place of employment must be notified of the investigation, and strike reference to BOM), § 85a.5 (replace "motion pictures or videotapes" with "video recordings" and "Human Subjects Review Board" with "Institutional Review Board"), and § 85a.8 (replace "NIOSH Regional Consultant for Occupational Safety and Health" with "NIOSH Education and Information Division.")

C. Costs and Benefits

Because HHS is proposing no substantive changes to 42 CFR part 85a, there would be no changes made to current practices. Therefore, there are no costs or benefits associated with this rulemaking.

II. Public Participation

Interested parties may participate in this rulemaking by submitting written views, opinions, recommendations, and data. This notice of proposed rulemaking is published in conjunction with a direct final rule (DFR) because HHS finds that the updates to Part 85a add clarity to the regulation and are non-controversial; HHS does not expect to receive any significant adverse comments on this rulemaking. If significant adverse comments are received, HHS will publish a notice in the **Federal Register** to withdraw the companion DFR. A final rule will subsequently be published, which will include the Agency's response to comments. If HHS does not receive any significant adverse comments on this notice of proposed rulemaking or the companion DFR within the specified comment period, we will publish a notice in the **Federal Register** confirming the effective date of the final rule within 30 days after the close of the public comment period and withdraw this notice of proposed rulemaking.

Comments received, including attachments and other supporting materials, are part of the public record and subject to public disclosure. Do not include any information in your comment or supporting materials that you do not wish to be disclosed. You may submit comments on any topic related to this notice of proposed rulemaking.

III. Statutory Authority

Subsection 20(b) of the Occupational Safety and Health (OSH) Act of 1970 authorizes the Secretary of Health and Human Services to make inspections and question employers and employees as provided in section 8 of the OSH Act in order to carry out the Secretary's functions and responsibilities under section 20 [29 U.S.C. 669; 29 U.S.C. 657]. Section 8(g)(2) instructs the Secretary to prescribe such regulations as are deemed necessary to carry out the responsibilities of the agency to conduct inspections of an employer's establishment. Sections 103 and 501 of the Federal Mine Safety and Health (FMSH) Act of 1977 authorize the Secretary to make inspections and investigations at coal mines in order to conduct research as may be appropriate
