Abstract: The affected entities are subject to the General Provisions of the NESHAP (40 CFR part 60, subpart A), and any changes, or additions, to the Provisions are specified at 40 CFR part 60, subparts KKK and LLL. Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are required semi-annually at a minimum.

Form Numbers: None.

Respondents/affected entities:

Owners or operators of onshore natural gas processing plants.

Respondent’s obligation to respond:

Mandatory (40 CFR part 60, subparts KKK and LLL).

Estimated number of respondents: 577 (total).

Frequency of response: Initially, semiannually and occasionally.

Total estimated burden: 121,646 hours (annually). “Burden” is defined at 5 CFR 1320.3(b).

Total estimated cost: \$11,967,480 (per year), includes \$68,400 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease in burden from the OMB Inventory of Approved Burden. This change is attributed to a decrease in the number of affected onshore gas processing facilities subject to subparts KKK and LLL, which was due to the impact of a new NSPS rule, which is subpart OOOO. This ICR merges EPA ICR Numbers 1086.09 and 2438.02 in

order to resolve the inconsistencies with the required monitoring, recordkeeping and reporting requirements under these rules, as well as to update the number of existing respondents, resulting from the issuing of the new subpart OOOO. New and modified sources after August 23, 2011, subject to subparts KKK and LLL will now report under subpart OOOO; therefore, this ICR only includes the burden for existing respondents that are subject to the subparts KKK and LLL.

It should be noted that the wage rates in this ICR have been updated resulting in an increase of the cost of labor.

Director, Collection Strategies Division.

EPA ICR#: 1812.05.

OMB Control #: 2020-0020.

Abstract: Section 1414 (c)(3)(A) of the Safe Drinking Water Act (SDWA) requires that each state (a term that includes states, commonwealths and territories) that has primary enforcement authority under the Safe Drinking Water Act shall prepare, make readily available to the public, and submit to the Administrator of EPA, an annual report of violations of national primary drinking water regulations in the state. These Annual State Public Water System Compliance Reports are to include violations of maximum contaminant levels, treatment requirements, variances and exemptions, and monitoring requirements determined to be significant by the Administrator after consultation with the states. To minimize a state's burden in preparing its annual statutorily-required report, EPA issued guidance that explains what Section 1414(c)(3)(A) requires and

provides model language and reporting templates.

Fifty-five states (including Puerto Rico, the Virgin Islands, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and Navajo Nation) currently have primary enforcement authority under the Safe Drinking Water Act. The Navajo Nation was approved for primacy on December 6, 2000. Currently the State of Wyoming and the District of Columbia neither have primary enforcement authority nor are they seeking primary authority, so the number of 55 states is unlikely to change over the next three years of this ICR.

Form Numbers: None.

Respondents/affected entities: State, local and/or tribal governments.

Respondent's obligation to respond: Mandatory under Section 1414 (c)(3)(A) of the Safe Drinking Water Act.

Estimated number of respondents: 55 (total).

Frequency of response: Annual.

Total estimated burden: 4,400 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$317,684.95 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in the total estimated respondent burden compared with the ICR currently approved by OMB.
