DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).
Title: South Pacific Tuna Act.
OMB Control Number: 0648-0218.
Form Number(s): NA.
Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 41.
Average Hours per Response: Expressions of interest in the fishery: initial, 2 hours; renewal, 15 minutes; license applications, 1 hour; vessel monitoring system (VMS) registration, 45 minutes; catch report forms, 1 hour; unloading logsheets, 30 minutes.
Burden Hours: 402.

Needs and Uses: This request is for extension of a current information collection.
 The National Oceanic and Atmospheric Administration (NOAA) collects vessel license, vessel registration, catch, and unloading information from operators of United States (U.S.) purse seine vessels fishing within a large region of the western and central Pacific Ocean, which is governed by the Treaty on Fisheries between the Governments of Certain Pacific Island States and the Government of the United States of America. The Treaty, along with its annexes, schedules and implementing agreements, was signed in Port Moresby, Papua New Guinea, in 1987. This collection of information is required to meet U.S. obligations under the Treaty.
 The Treaty authorizes United States (U.S.) tuna vessels to fish within fishing zones of a large region of the Pacific Ocean. The South Pacific Tuna Act of 1988 (16 U.S.C. 973-973r) and U.S. implementing regulations (50 CFR Part 300, Subpart D) authorize the collection of information from participants in the Treaty fishery. Vessel operators who wish to participate in the Treaty Fishery must submit annual vessel license and registration (including registration of VMS) units) applications and periodic written reports of catch and unloading of fish from licensed vessels. They are also required to ensure the continued operation of VMS units on board licensed vessels, which is expected to require periodic maintenance of the
