SUPPLEMENTARY INFORMATION: *Title:* Voucher for Federal-aid Reimbursements.

OMB Control Number: 2125-0507.

Background: The Federal-aid Highway Program provides for the reimbursement to States for expenditure of State funds for eligible Federal-aid highway projects. The Voucher for Work Performed under Provisions of the Federal Aid and Federal Highway Acts as amended is utilized by the States to provide project financial data regarding the expenditure of State funds and to request progress payments from the FHWA. Title 23 U.S.C. 121(b) requires the submission of vouchers. The specific information required on the voucher is contained in 23 U.S.C. 121 and 117. Two types of submissions are required by recipients. One is a progress voucher where the recipient enters the amounts claimed for each FHWA appropriation, and the other is a final voucher where project costs are classified by work type. An electronic version of the Voucher for Work Performed under Provisions of the Federal Aid Highway Acts, as amended, Form PR-20, is used by all recipients to request progress and final payments.

Respondents: 50 State Transportation Departments, the District of Columbia, Puerto Rico, Guam, American Samoa, and the Virgin Islands.

Frequency: Annually.

Estimated Average Burden per

Response: The respondents electronically submit an estimated total of 12,900 vouchers each year. Each voucher requires an estimated average of 30 minutes to complete.

Estimated Total Annual Burden

Hours: 6,450 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection of information is necessary for the U.S. DOT's performance, including whether the information will have practical utility; (2) the accuracy of the U.S. DOT's estimate of the burden of the proposed information collection; (3) ways to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Abstract: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: the target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic

mechanisms that are designed to yield quantitative results.

Average Expected Annual Number of activities: 40.

Respondents: 40,000.

Annual responses: 40,000.

Frequency of Response: Once per request.

Average minutes per response: 60.

Burden hours: 40,000.
