

Information Collection: Community First Choice Option; *Use:* This project is an evaluation of the implementation and progress of the Community First Choice (CFC) Option. The results of the study will be included in the final Report to Congress, to be delivered by the Secretary of Health and Human Services in 2015. The project is designed to assist CMS and Congress in their understanding of: States' CFC implementation plans, the effectiveness of the CFC Option on individuals receiving home- and community-based attendant care, and States' spending on long-term services and supports.

Researchers will request data from States approved for CFC via a data form and semi-structured interviews. Information obtained will be used to better understand CFC program design, the targeted patient population, and intended outcomes. At this time, we have only approved California's program. To provide comparative information to the Secretary, researchers will also collect data from States that have decided not to pursue the CFC option. Data will be analyzed and developed into a report to Congress which will evaluate the effectiveness of the CFC option, the program's impact on participants' physical and emotional health, and a comparative analysis of the costs of community-based services and those provided in institutional settings. *Form Number:* CMS-10462 (OCN: 0938—New); *Frequency:* Once; *Affected Public:* Individuals and households, private sector (business or other for-profits and not-for-profit institutions), and State, Local, or Tribal Governments; *Number of Respondents:* 108; *Total Annual Responses:* 126; *Total Annual Hours:* 225.
