SUPPLEMENTARY INFORMATION:

Background

The Codex Alimentarius (Codex) was established in 1963 by two United Nations organizations, the Food and Agriculture Organization and the World Health Organization. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure fair practices in the food trade.

The Codex Committee on Methods of Analysis and Sampling is responsible for:

(a) Defining the criteria appropriate to Codex methods of analysis and sampling;

(b) Serving as a coordinating body for Codex with other international groups working in methods of analysis and sampling and quality assurance systems for laboratories;

(c) Specifying the basis of final recommendations submitted to it by other bodies;

(d) Considering, amending, and endorsing, methods of analysis and sampling proposed by Codex (commodity) committees, except that methods of analysis and sampling for residues of pesticides or veterinary drugs in food, the assessment of micro biological quality and safety in food, and the assessment of specifications for food additives do not fall within the terms of reference of this Committee;

(e) Elaborating sampling plans and procedures;

(f) Considering specific sampling and analysis problems submitted to it by the Commission or any of its Committees; and

(g) Defining procedures, protocols, guidelines or related texts for the assessment of food laboratory proficiency, as well as quality assurance systems for laboratories.

The CCMAS is hosted by Hungary.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Klamath National Forest is preparing an environmental impact statement (EIS) for the proposed Crawford Vegetation Management Project to improve forest health and biological diversity and to provide forest products on approximately 1,467 acres. The project was originally proposed as an environmental assessment and an opportunity for public scoping comments was provided between August 2011 and October 2011. Although consultation and analysis are still ongoing, so far they indicate that in order to effectively meet the purpose and need of the project, proposed

The proposed action for the EIS is identical to the previous proposal as scoped in 2011.

The project is located about 15 miles southwest of the community of Happy Camp, off of the Bear Peak Road (Forest Road 15N19). The legal description of the proposed project area is: Township 14 North, Range 5 East, Sections 1, 12; Township 14 North, Range 6 East, Section 1, 3-5, 12, 13, 15-17, 20-22, 28, 29; Township 15 North, Range 5 East, Section 25, 36; and Township 15 North, Range 6 East, section 26-29, 32-36, Humboldt Meridian.
