

for this review is presented in the *Integrated Review Plan for the Ozone National Ambient Air Quality Standards*.¹ As part of the EPA's review of the primary and secondary O₃ NAAQS,² the Agency has conducted quantitative assessments characterizing the: (1) Health risks associated with exposure to ambient O₃; (2) welfare risks associated with exposure to ambient O₃; and, (3) associated ambient air quality analyses. On or about January 31, 2014, the EPA is making available for public comment two draft assessment documents titled, *Health Risk and Exposure Assessment for Ozone, Second External Review Draft* and *Welfare Risk and Exposure Assessment for Ozone, Second External Review Draft*. These documents revise the first draft Health Risk and Exposure Assessment (EPA-452/P-12-001; July 2012) and first draft Welfare Risk and Exposure Assessment (EPA-452/P-12-004; July 2012), respectively.³ The draft assessment documents announced today convey the approaches taken to assess exposures to ambient O₃ and to characterize associated health and welfare risks, as well as present the key results, observations, and related uncertainties associated with the quantitative analyses performed. These draft assessments may be accessed online through the EPA's Technology Transfer Network (TTN) Web site at http://www.epa.gov/ttn/naaqs/standards/ozone/s_o3_index.html.

In addition, on or about January 31, 2014, the EPA will make available the draft document titled, *Policy Assessment for the Review of the Ozone National Ambient Air Quality Standards, Second External Review Draft*. This document will serve to "bridge the gap" between the scientific information and the judgments required of the Administrator in determining whether to retain or revise the existing NAAQS for (O₃), and, if revision is considered, what revisions may be appropriate. This document revises the first draft Policy Assessment (EPA-452/P-12-004; July 2012).⁴ The Policy Assessment builds upon information presented in the *Integrated Science Assessment of Ozone and Related*

Photochemical Oxidants (Final Report)⁵ and the two draft assessment documents announced today and described above. The second draft Policy Assessment may be accessed online through the EPA's TTN Web site at: http://www.epa.gov/ttn/naaqs/standards/ozone/s_o3_index.html.

The EPA is soliciting advice and recommendations from the CASAC by means of a review of these draft documents at an upcoming public meeting of the CASAC. Information about these public meetings, including the dates and locations, will be published as a separate notice in the **Federal Register**. Following the CASAC meeting, the EPA will consider comments received from the CASAC and the public in preparing revisions to these documents. The EPA will consider public comments submitted in response to this notice when revising the documents. The documents that are the subject of today's notice do not represent and should not be construed to represent any final EPA policy, viewpoint or determination.
