(d) Unused rate adjustment authority generated under paragraph (a) of this section shall be subject to the limitation under § 3010.29, regardless of whether it is used alone or in combination with other existing unused rate adjustment authority.

■ 21. Add new § 3010.30 to read as follows:

**§ 3010.30 De minimis rate increases.**

(a) The Postal Service may elect to file a Type 1–A notice of rate adjustment as a de minimis rate increase if:

(1) For each affected class, the rate increases contained within the notice of a Type 1–A rate adjustment do not result in the percentage change in rates for the class equaling or exceeding 0.001 percent; and

(2) For each affected class, the sum of all rate increases included in de minimis rate increases since the most recent Type 1–A or Type 1–B rate adjustment that was not a de minimis rate increase does not result in the percentage change in rates for the class equaling or exceeding 0.001 percent.

(b) No unused rate adjustment authority will be added to the schedule of unused rate adjustment authority maintained under § 3010.26(f) as a result of a de minimis rate increase.

(c) No rate decreases may be taken into account when determining whether rate increases comply with paragraphs (a)(1) and (a)(2) of this section.

(d) In the next notice of a Type 1–A or Type 1–B rate adjustment for a class that is not a de minimis rate increase:

(1) The annual limitation shall be calculated as if the de minimis rate increase had not been filed; and

(2) For purposes of calculating the percentage change in rates, the current rate shall be the current rate from the de minimis rate increase.

(e) The Postal Service shall file supporting workpapers with each notice of de minimis rate increase that demonstrate that the sum of all rate increases included in de minimis rate increases since the most recent Type 1–A or Type 1–B notice of rate adjustment that was not de minimis does not result in a percentage change in rates for the class equaling or exceeding 0.001 percent.

**ACTION:** Proposed rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is proposing approval of revisions submitted by the State of Texas that affect the Texas State Implementation Plan (SIP) concerning Texas' motor vehicle air pollution rules. We also are proposing to approve the removal of the Transportation Control Measures (TCM) substitution repealed rules from the Texas SIP. We are proposing to approve as part of the SIP, a new Texas Clean Fleet (TCF) program, with submitted revisions, to incentivize replacement of diesel vehicles and engines with alternatively fueled vehicles and engines, including hybrids.

[Docket No. 130716623-4062-01]

**RIN 0648-BD50**

#### Fisheries of the Northeastern United States; Atlantic Mackerel, Squid, and Butterfish Fisheries; Framework Adjustment 8

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Proposed rule, request for comments.

**SUMMARY:** Framework Adjustment 8 (Framework 8) proposes several changes to facilitate operation of the butterfish discard cap in the longfin squid fishery and the directed butterfish fishery. Framework 8 would allocate the butterfish discard cap among trimesters in the same percentages used for the trimester allocations for longfin squid: 43 percent to Trimester I (January to April); 17 percent to Trimester II (May to August), and 40 percent to Trimester III (September to December). Each trimester would close when it is estimated that 95 percent of the butterfish discard cap has been taken. In addition, Framework 8 would allow NMFS to transfer, in either direction, up to 50 percent of unused quota between the butterfish landing allocation and the discard cap on the longfin squid fishery. This would occur near the end of the year in order to optimally utilize the butterfish that is available for fishing each year.

**DATES:** Public comments must be received by March 3, 2014.
