

that have not yet become effective. These devices may be not operated unless permitted by § 2.805.

The following general guidelines apply for third party notifications:

(a) A RF device may be advertised and displayed at a trade show or exhibition prior to a demonstration of compliance with the applicable technical standards and compliance with the applicable equipment authorization procedure provided the advertising and display is accompanied by a conspicuous notice specified in §§ 2.803(c)(2)(iii)(A) or 2.803(c)(2)(iii)(B).

(b) An offer for sale solely to business, commercial, industrial, scientific, or medical users of an RF device in the conceptual, developmental, design or pre-production stage prior to demonstration of compliance with the equipment authorization regulations may be permitted provided that the prospective buyer is advised in writing at the time of the offer for sale that the equipment is subject to FCC rules and that the equipment will comply with the appropriate rules before delivery to the buyer or centers of distribution.

(c) Equipment sold as evaluation kit may be sold to specific users with notice specified in § 2.803(c)(2)(iv)(B).

The information to be disclosed about marketing of the RF device is intended:

(1) To ensure the compliance of the proposed equipment with Commission rules; and

(2) To assist industry efforts to introduce new products to the marketplace more promptly.

The information disclosure applies to a variety of RF devices that:

(1) Is pending equipment authorization or verification of compliance;

(2) May be manufactured in the future;

(3) May be sold as kits; and

(4) Operates under varying technical standards.

The information disclosed is essential to ensuring that interference to radio communications is controlled.

Federal Communications Commission.

Gloria J. Miles,

Federal Register Liaison, Office of the Secretary, Office of Managing Director.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

Information Collection Being Submitted to the Office of Management and Budget for Review and Approval

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burden and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501—3520), the Federal Communications Commission invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s). Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information burden for small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before March 3, 2014. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Submit your PRA comments to Nicholas A. Fraser, Office of Management and Budget, via fax at 202-395-5167 or via Internet at *Nicholas.A.Fraser@omb.eop.gov* and to Benish Shah, Federal Communications Commission, via the Internet at *Benish.Shah@fcc.gov*. To submit your PRA comments by email send them to: *PRA@fcc.gov*.

FOR FURTHER INFORMATION CONTACT: Benish Shah, Office of Managing Director, (202) 418-7866.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1139.

Title: FCC Consumer Broadband Services Testing and Measurement.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Individuals or households; business or other for-profit; and state, local or tribal government.

Number of Respondents: 501,020 respondents; 501,020 responses.

Estimated Time per Response: 1 to 200 hours.

Frequency of Response: Biennial reporting requirement and third party disclosure requirement.

Obligation to Respond: Voluntary. Statutory authority for this information collection is contained in the Broadband Data Improvement Act of 2008, Public Law 110-385, Stat 4096, 103(c)(1).

Total Annual Burden: 46,667 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: This information collection affects individuals or households. However, personally identifiable information (PII) is not being collected by, made available to or made accessible by the Commission but instead by third parties including SamKnows, a third party contractor, and Internet Service Provider (ISP) Partners.

Nature and Extent of Confidentiality: No personally identifying information (PII) will be transmitted to the Commission from the contractor as a matter of vendor policy and agency privacy policy. SamKnows maintains a series of administrative, technical, and physical safeguards to protect against the transmission of PII. At point of registration, individuals will be given full disclosure in a "privacy statement" highlighting what information will be collected. ISP Partners will receive PII about volunteers to confirm the validity of the information against their subscription records, but will be bound by a non-disclosure agreement that will maintain various administrative, technical and physical safeguards to protect the information and limit its use. ISP Partners providing support to the testing program will likewise be bound to the same series of administrative, technical and physical safeguards developed by SamKnows. In addition all third parties supporting the program directly will be bound by a "Code of Conduct" to ensure all participate and act in good faith and with other legally enforceable documents such as non-disclosure agreements.

Needs and Uses: The Commission will submit this revised information collection to the Office of Management and Budget (OMB) order to obtain the full three year clearance from them. The Commission is reporting a program change (there has been a program change in the reporting requirements, the number of respondents increased from 11,016 to 46,667). The Commission

is requesting OMB approval for this revision.

The Broadband Data Improvement Act of 2008, Public Law 110–385, Stat 4096, 103(c)(1) directs the Commission to collect information on the type of technology used to provide broadband to consumers, the price of such services, actual transmission speeds, and the reasons for non-adoption of broadband service.

This collection of information is necessary to complete research done for the Broadband Plan on key consumer issues including transparency and actual speeds and performance of broadband service and broadband usage and performance in schools and libraries.

The Commission's Office of Engineering and Technology (OET), Office of Strategic Planning and Policy Analysis (OSPPA) and Consumer and Governmental Affairs Bureau (CGB) and other Commission entities use the information collected under this study to assess what actual broadband speeds and performance consumers are currently receiving from providers. Our purpose is to measure the speed of broadband services provided by ISPs across service packages and geographies, rather than to assess the differences in broadband performance received by demographics. This assessment will help the Commission create standards for broadband measurements, assess the validity of ISP performance claims, and inform future steps to increasing transparency and consumer awareness of broadband service.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary, Office of Managing Director.

BILLING CODE 6712–01–P

FEDERAL COMMUNICATIONS COMMISSION

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission (FCC or the Commission) invites the general public and other

Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before April 1, 2014. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0863.

Title: Satellite Delivery of Network Signals to Unserved Households for Purposes of the Satellite Home Viewer Act.

Form Number: Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 848 respondents; 250,000 responses.

Estimated Time per Response: 0.50 hours.

Frequency of Response: Recordkeeping requirement, On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory

authority for this information collection action is contained in the Satellite Home Viewer Act, 17 U.S.C. 119. The Satellite Home Viewer Act is an amendment of the Copyright Act; and Satellite Television Extension and Localism Act of 2010, Title V of the “American Workers, State, and Business Relief Act of 2010,” Public Law 111–175, 124 Stat. 1218 (2010) (STELA), see footnote 3.

Total Annual Burden to Respondents: 125,000 hours.

Total Annual Costs: None.

Privacy Impact Assessment(s): No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: 47 CFR 73.686 describes a method for measuring signal strength at a household so that the satellite and broadcast industries would have a uniform method for making an actual determination of the signal strength that a household received. The information gathered as part of the Grade B contour signal strength tests will be used to indicate whether a household is “unserved” by over-the-air network signals.

Satellite and broadcast industries making field strength measurements for formal submission to the Commission in rulemaking proceedings, or making such measurements upon the request of the Commission, shall follow the procedure for making and reporting such measurements which shall be included in a report to the Commission and submitted in affidavit form, in triplicate. The report shall contain the following information:

(a) Tables of field strength measurements, which for each measuring location; (b) U.S. Geological Survey topographic maps; (c) All information necessary to determine the pertinent characteristics of the transmitting installation; (d) A list of calibrated equipment used in the field strength survey; (e) A detailed description of the calibration of the measuring equipment, and (f) Terrain profiles in each direction in which measurements were made.

47 CFR 73.686 also requires satellite and broadcast companies to maintain a written record describing, for each location, factors which may affect the recorded field (i.e., the approximate time or measurement, weather, topography, overhead wiring, heights and types of vegetation, buildings and other structures, the orientation of the measuring location, objects of such shape and size that cause shadows or reflections, signals received that arrived from a direction other than that of the
