**Upcoming Sunset Reviews for March 2014**

The following Sunset Reviews are scheduled for initiation in March 2014 and will appear in that month’s Notice of Initiation of Five-Year Sunset Review (“Sunset Review”).

**Electrolytic Manganese Dioxide From Australia and the People’s Republic of China: Final Results of the Expedited First Sunset Reviews of the Antidumping Duty Orders**

**AGENCY:** Enforcement and Compliance, Formerly Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** On September 3, 2013, the Department of Commerce (“the Department”) initiated the first sunset reviews of the antidumping duty (“AD”) orders on electrolytic manganese dioxide (“EMD”) from Australia and the People’s Republic of China (“PRC”) pursuant to section 751(c) of the Tariff

Act of 1930, as amended (“the Act”). Based on the notice of intent to participate and adequate substantive response filed by the domestic interested party, and the lack of response from any respondent interested party, the Department conducted expedited (120-day) sunset reviews of these AD orders, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2). As a result of these sunset reviews, the Department finds that revocation of the AD orders would likely lead to continuation or recurrence of dumping at the levels indicated in the “Final Results of Sunset Reviews” section of this notice.

**DATES:** *Effective Date:* February 3, 2014.
