AGENCY: Employment and Training Administration (ETA), Labor.

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, ETA is soliciting comments concerning the collection of data about the ETA 227, Overpayment Detection and Recovery Activities. The Unemployment Insurance (UI) program paid approximately \$46 billion in benefits in FY 2013. Collecting data through ETA 227 allows us to measure the effectiveness of the benefit payment control programs in the State Workforce Agencies (SWA). The current expiration date is August 31, 2014.

DATES: Written comments must be submitted to the office listed in the addresses section below on or before April 7, 2014.

SUPPLEMENTARY INFORMATION:

I. Background

Section 303(a)(1) of the Social Security Act requires a state's unemployment insurance UI law to include provisions for:

Such methods of administration . . . as are found by the Secretary of Labor to be reasonably calculated to insure full payment of unemployment compensation when due . . .

Section 303(a)(5) of the Social Security Act further requires a state's UI law to include provisions for:

Expenditure of all money withdrawn from an unemployment fund of such State, in the payment of unemployment compensation . . .

Section 3304(a)(4) of the Internal Revenue Code of 1954 provides that:

all money withdrawn from the unemployment fund of the State shall be used solely in the payment of unemployment compensation . . .

The Secretary of Labor has interpreted the above sections of federal law in Section 7511, Part V, ES Manual to further require a state's UI law to include provisions for such methods of administration as are, within reason, calculated to: (1) Detect benefits paid through error by the SWA or through willful misrepresentation or error by the claimant or others; (2) deter claimants from obtaining benefits through willful misrepresentation; and (3) recover benefits overpaid. The ETA 227 is used to determine whether SWAs meet these requirements.

The ETA 227 contains data on the number and amounts of fraud and non-fraud overpayments established, the methods by which overpayments were detected, the amounts and methods by which overpayments were collected, the amounts of overpayments waived and written off, the accounts receivable for overpayments outstanding, and data on criminal/civil actions. These data are gathered by 53 SWAs and reported to the Department of Labor following the end of each calendar quarter. The
