

F. Executive Order 13175, Coordination With Indian Tribal Governments

Executive Order 13175, entitled “Consultation and Coordination with Indian Tribal Governments” (65 FR 67249, November 9, 2000), requires EPA to develop an accountable process to ensure “meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications.” This proposed rule does not have tribal implications, as specified in Executive Order 13175. It will not have substantial direct effects on tribal governments, on the relationship between the Federal government and Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes. Thus, Executive Order 13175 does not apply to this rule. However, even though EPA is acting on a State plan, and that plan does not apply in Indian Country, there are four tribes located within the PM-10 nonattainment area, several of which have imposed particulate control measures of their own in order to reduce PM-10 concentrations. EPA informed tribal environmental staff regarding the proposed approval so that the tribes could inform their leadership and participate in the public comment process if desired.

EPA specifically solicits additional comment on this proposed rule from tribal officials.

G. Executive Order 13045, Protection of Children From Environmental Health Risks and Safety Risks

EPA interprets Executive Order 13045 (62 FR 19885, April 23, 1997) as applying only to those regulatory actions that concern health or safety risks, such that the analysis required under section 5–501 of the Executive Order has the potential to influence the regulation. This rule is not subject to Executive Order 13045, because it approves a state rule implementing a Federal standard.

H. Executive Order 12898, Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Population

Executive Order 12898, “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations” (February 16, 1994) establishes federal executive policy on environmental justice. Its main provision directs federal agencies, to the greatest extent practicable and permitted by law, to make environmental justice part of their mission by identifying and addressing,

as appropriate, disproportionately high and adverse human health or environmental effects of their programs, policies and activities on minority populations and low-income populations in the United States. The Executive Order has informed the development and implementation of EPA’s environmental justice program and policies. Consistent with the Executive Order and the associated Presidential Memorandum, the Agency’s environmental justice policies promote environmental protection by focusing attention and Agency efforts on addressing the types of environmental harms and risks that are prevalent among minority, low-income and Tribal populations.

This action will not have disproportionately high and adverse human health or environmental effects on minority, low-income or Tribal populations because the action proposed increases the level of environmental protection for all affected populations without having any disproportionately high and adverse human health or environmental effects on any population, including any minority or low-income population.

I. Executive Order 13211, Actions That Significantly Affect Energy Supply, Distribution, or Use

This rule is not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001) because it is not a significant regulatory action under Executive Order 12866.

J. National Technology Transfer and Advancement Act

Section 12 of the National Technology Transfer and Advancement Act (NTTAA) of 1995 requires Federal agencies to evaluate existing technical standards when developing a new regulation. To comply with NTTAA, EPA must consider and use “voluntary consensus standards” (VCS) if available and applicable when developing programs and policies unless doing so would be inconsistent with applicable law or otherwise impractical.

EPA believes that VCS are inapplicable to this action. Today’s action does not require the public to perform activities conducive to the use of VCS.

I. Public Inspection of Comments

All comments received, including any personal information provided, will be made available for public inspection Monday through Friday 8:30 a.m. to 5 p.m. at 370 L'Enfant Promenade SW., Washington, DC.

II. Statutory Authority

This proposed regulation is being issued under the authority granted to the Secretary of Health and Human Services (HHS) by the Middle Class Tax Relief and Job Creation Act of 2012 (Pub. L. 112-96), Section 408 of the Social Security Act (42 U.S.C. 608), Section 409 of the Social Security Act (42 U.S.C. 609), and Section 1102 of the Social Security Act (42 U.S.C. 1302), which authorizes the Secretary to make and publish such rules and regulations, not inconsistent with the Act, as may be necessary to the efficient administration of functions under the Act.

The statute at 42 U.S.C. 617 limits the authority of the Federal government to regulate state conduct or enforce the TANF provisions of the Social Security Act, except as expressly provided. We have interpreted this provision to allow us to regulate where Congress has charged HHS with enforcing certain TANF provisions by assessing penalties. Because the legislation includes a TANF penalty, HHS has the authority to regulate in this instance.

III. Background

Authorized by title IV-A of the Social Security Act, TANF is a block grant that provides states, territories and tribes
